Declarations Of Independence Cross Examining American Ideology:

Declarations of Independence Howard Zinn, 1990 The acclaimed author of *A People's History of the United States* presents an honest and piercing look at American political ideology Reframing Decision Making in Education Perry R. Rettig, 2016-07-18 American schools should be laboratories for modeling democratic concepts However our school systems are the antithesis of democratically run organizations Teaching professionals students and parents have very little power or genuine influence in decision making *Reframing Decision Making in Education* begins by describing the current status of American schools and concludes with a description of the organizational structure leadership and decision making practices necessary to make our schools operate in a manner congruent with those democratic principles we espouse as a country This book describe a democratic structure and a decision making matrix to help reform leaders begin such an endeavor Woven through each chapter is a fictional story of Principal Samantha Levy We see Ms Levy's struggles as she begins the process of making change in her high school and its impact on those around her **Agitation with a Smile** Stephen Bird, Adam Silver, Joshua C. Yesnowitz, 2015-11-17 *Agitation with a Smile* offers a reappraisal of Howard Zinn's political thought and situates his efforts in a contemporary context looking toward the nature of activism and dissent in the future This is the first book to provide a substantive account and assessment of Zinn's philosophy and approach to collective action and to a larger extent democracy The contributors to this book explore the most effective mechanisms by which to arouse public support for seemingly radical positions and how current technological advancements may alter our perception of Zinn's activism The book is a valuable guide to a new generation of activists and scholars of politics in gauging the lasting relevance and legacy of Zinn's ideals concepts and methodology The text is neither fawning nor unduly critical unlike many discussions of Zinn in popular culture Rather the contributors engage the various complexities and tensions present throughout Zinn's work and subject them to contemporary assessment This is a multidisciplinary and international approach to Howard Zinn's intellectual and activist canon *Democracy, Equality, and Justice* John E. Hill, 2007-07-27 Challenging common interpretations of the political thought of John Adams and Adam Smith *Democracy Equality and Justice* offers an engaging and novel portrait of the political economy in America at its founding The founders believed that liberty should not trump community but should exist within the context of community Drawing on extensive written records of the thought of John Adams and Adam Smith the father of modern capitalism Dr John E Hill argues that these two great men advocated a balanced values based and just political economy Adams historically misperceived as a rugged individualist who favored aristocracy over democracy actually emphasized political balance with no one socio economic class dominating any other Smith incorrectly portrayed as a supporter of laissez faire government advocated economic balance with no class or individual receiving special treatment from the government Applying their values of universalism and moderation today would significantly broaden the definition of morality in contemporary politics *Democracy Equality and Justice* is a

stimulating and sophisticated text that will encourage debate over the relationship between historical ideas and contemporary economic problems *Jailhouse Lawyers* Mumia Abu-Jamal, 2020-09-18 Expert and well reasoned commentary on the justice system His writings are dangerous The Village Voice In *Jailhouse Lawyers* award winning journalist and death row inmate Mumia Abu Jamal presents the stories and reflections of fellow prisoners turned advocates who have learned to use the court system to represent other prisoners many uneducated or illiterate and in some cases to win their freedom In Abu Jamal s words This is the story of law learned not in the ivory towers of multi billion dollar endowed universities but in the bowels of the slave ship in the dank dungeons of America Includes an introduction by Angela Y Davis Mumia Abu Jamal s books include *Live From Death Row* and *Death Blossoms* **The Twentieth Century** Howard Zinn, 2009-10-13 Howard Zinn s best selling classic *A People s History of the United States* revolutionized the literature of America s history by allowing everyday citizens to tell the story of a nation in their own words Containing just the 20th century chapters from *A People s History* *The Twentieth Century* features a comprehensive overview of the last hundred years From the closing of the Western Frontier to the War on Terror *The Twentieth Century* is an invaluable guide to one of the most remarkable periods in human history Howard Zinn 1922 2010 was a historian playwright and activist He wrote the classic *A People s History of the United States* which has sold more than two million copies and was featured in a documentary on the History Channel His other writings include the play *Marx in Soho* and his autobiography *You Can t Be Neutral on a Moving Train* He received the Lannan Foundation Literary Award for Nonfiction and the Eugene V Debs award for his writing and political activism Professor Zinn writes with an enthusiasm rarely encountered in the leaden prose of academic history Eric Foner New York Times Book Review **Black Politics in Conservative America** Marcus D. Pohlmann, 1999 In this data rich study Pohlmann illuminates the institutionalized economic discrimination that functions to keep African Americans from moving ahead and delineates policy alternatives that offer hope and stimulate discussion *Bulletin of the Atomic Scientists* , 1991-09 *Civic Illiteracy and Education* J. D. Marciano, 1997 This book presents a disturbing thesis education often through history textbooks promotes civic illiteracy and turns civic responsibility into patriotic conformity Youth are taught to support a dominant elite view of international conflicts which undermines the critical abilities that are essential for citizens in a democracy Expanding upon the social and educational insights of dissident theorists the author challenges the view of civic literacy put forth by such educators as William Bennett and Diane Ravitch **On the Fault Line** Carolyn Gallaher, 2003 *On the Fault Line* examines the American Patriot Movement a broad right wing social movement that includes militias Second Amendment activists tax protestors and individuals who drop out of the system For all those interested in the fluctuating systems of power within the United States Gallaher s work proves to be a fascinating and unique analysis *Zinn for Beginners* David Cogswell, 2009 An essential guide to one of the most vital contemporary historians Howard Zinn has led a revolution in writing history by telling the story not from the standpoint of

the rulers but of the individual and the masses Zinn tells the story of Columbus from the perspective of the native people who were terrorised for gold of the Civil War from the slaves and civilians who lost their lives at the hands of generals and of the Spanish American war from the perspective of Mark Twain Zinn's fresh bold new take on history has earned him a devoted following Ascent to Freedom Glen T. Martin, 2008 *Ascent to Freedom* develops a philosophical framework for democratic world law by drawing on the scientific revolutions of the twentieth century the history of philosophy of law and contemporary discussions of law democracy and human rights It traces the history of the philosophy of law from ancient times to the present showing the progressive development of democratic thought that culminates in the imperative for global democracy It examines the legitimacy of the dominant institutions in the contemporary world monopoly capitalism and the nation state system and points beyond these destructive fragmenting institutions to a holistic approach for human affairs It concludes by developing the parameters and the likely consequences of a conversion to democratic world law for protecting the environment and human rights as well as creating a world system of peace and prosperity for everyone on Earth *Ascent to Freedom* lays out both the practical and conceptual foundations for a transformed world order that can deal directly with our multiple global crises while creating peace and prosperity on Earth Conflict and Cooperation Marc A. Genest, 2004 Designed to acquaint students with the fundamental principles of and treatises on international relations theory CONFLICT AND COOPERATION combines a broad range of historical and contemporary readings that provide a thorough balanced view of International Relations theory This text could be used alone or as a complement to a standard International Relations text
