Defacement Public Secrecy And The Labor Of The Negative:

Defacement Michael T. Taussig, 1999 Defacement asks what happens when something precious is despoiled In specifying the human face as the ideal type for thinking through such violation this book raises the issue of secrecy as the depth that seems to surface with the tearing of surface

Defacement Michael Taussig, 2022 Defacement asks what happens when something precious is despoiled It begins with the notion that such activity is attractive in its very repulsion and that it creates something sacred even in the most secular of societies and circumstances In specifying the human face as the ideal type for thinking through such violation this book raises the issue of secrecy as the depth that seems to surface with the tearing of surface This surfacing is made all the more subtle and ingenious not to mention everyday by the deliberately partial exposures involved in the public secret defined as what is generally known but for one reason or another cannot easily be articulated Arguing that this sort of knowledge knowing what not to know is the most powerful form of social knowledge Taussig works with ideas and motifs from Nietzsche William Burroughs Elias Canetti Georges Bataille and the ethnography of unmasking in so called primitive societies in order to extend his earlier work on mimesis and transgression Underlying his concern with defacement and the public secret is the search for a mode of truth telling that unmask but only to reenchant thereby underlining Walter Benjamin s notion that truth is not a matter of exposure of the secret but a revelation that does justice to it

Public Secrets and Private Sufferings in the South African AIDS Epidemic Jonathan Stadler, 2021-04-26 This book tells the story of the HIV epidemic in South Africa and asks why after more than three decades it has not normalised Despite considerable efforts to prevent infection and ambitious targets set to end the epidemic by 2030 HIV infections are increasing among young women and treatment uptake and adherence have been uneven Focusing on the years preceding and following treatment access this book addresses why an end to AIDS may be misplaced optimism By examining public discourses and private narratives about infection illness and death this work reveals the contradictions between the lived experiences of AIDS suffering on the one hand and biomedical certainties on the other Based on long term ethnographic research in rural villages of the South African lowveld and within HIV prevention interventions in South Africa more generally this book offers an intimate perspective on the social and cultural responses to the epidemic

Public Secrets Henrice Altink, 2019 Through case studies on amongst others the labour market education the family and legal system this book examines the salience and silence of race and colour in Jamaica in the decades preceding and following independence and its impact on individuals and society

The Material of World History Tina Mai Chen, David S. Churchill, 2015-03-27 This volume considers the confluence of World History and historical materialism with the following guiding question in mind given developments in the field of historical materialism concerned with the intersection of race gender labour and class why is it that within the field of World History historical materialism has been marginalized precisely as World History orients toward transnational socio cultural phenomenon micro studies or global histories of networks Answering this question

requires thinking in an inter related manner about both the development of World History as a discipline and the place of economic determinism in historical materialism This book takes the position that historical materialism as applied to the field of World History needs to be more open to the methodological diversity of the materialist tradition and to refuse narrowly deterministic frameworks that have led to marginalization of materialist cultural analysis in studies of global capitalism At the same time World History needs to be more self critical of the methodological diversity it has welcomed through a largely inclusionary framework that allows the material to be considered separately from cultural social and intellectual dimensions of global processes

Promises to Keep Greg Dimitriadis, Dennis Carlson, 2003-05 For all of its promise public education in the twentieth century never lived up to its democratic potential This book takes a serious look at the slow erosion of the fuller democratic meaning of a public education and a public life

Distant Reading Peter Middleton, 2005 A dynamic account of the history practice and theory of poetry as performance Distant Reading considers poetry as performance offers new insights into its popularity and proposes a new history of its origins It also explores related issues concerning the reception of poetry the impact of the computer on how we read poetry the persistence of the letter I in poems by avant garde poets the strangeness of the line break as a demand on the reader's attention and the idea of the reader as consumer These themes are connected by a historically contextualized and theoretically sophisticated discussion of contemporary American and British poets continuing to work in the modernist tradition The introductory essay establishes a new methodology that transforms close reading into what Middleton calls distant reading interpretive reading that acknowledges the distances that texts travel from their point of composition to readers in other geographical and historical locations It indicates that poetic innovation is often driven by a desire on the part of the poet to make this distance do cultural work in the meanings that the poem generates Ultimately Distant Reading treats poetry as a cultural practice that is always situated within specific sites of performance recited on stage displayed in magazines laid out on a page scrolled on the computer screen rather than as a transcendent cloud of meaning tethered only to its words
