INSIGHTS AT THE NEXUS GENERATIVE ARTIFICIAL INTELLIGENCE - FROM BASICS TO BREAKTHROUGHS Neha Dhaliwal, 2024-06-14 Have you ever imagined that simply by picturing something and typing an image or video could be generated? How fascinating is that? This concept, once relegated to the realm of science fiction, has become a tangible reality in our modern world. The idea that our thoughts and words can be transformed into visual content is not only captivating but a testament to human innovation and creativity. Figure 1.1 The machine-generated image based on text input. Even as data scientists, many of us never anticipated that AI could reach a point where it could generate text for a specific use case. The struggles we faced in writing code or the countless hours spent searching on Google for the right solution were once common challenges. Yet, the technological landscape has shifted dramatically, and those laborious tasks have become relics of the past. How has this become possible? The answer lies in the groundbreaking advancements in deep learning and natural language processing (NLP).

International Perspectives on Educational Administration using Educational Inquiry Abdulrasheed Olowoselu, Areej ElSayary, 2024-08-02 This edited volume sets out the current issues that face educational administrative processes and resources across the globe and provides implications and responses for how best to tackle new challenges that arise. Featuring contributions and perspectives from the UAE, Nigeria, Malaysia, Indonesia, Portugal, Spain, Iran, and the United States, this diverse and truly international volume discusses the management of resources, tasks, and communication as key to the smooth running of educational institutions. Divided into four distinct parts, the chapters examine educational administration from theoretical, conceptual, and empirical angles, focusing on theories, administrative procedures, decision support systems, and management techniques in educational administration, as well as reward management and digital leadership. This book bridges the gap in educational administration by showcasing new trends across many countries and examining the role of theory in the field, using examples of classical and contemporary approaches, systems theory, leadership theory, and theories of change and innovation. Ultimately, presenting a problem-solving approach to the current educational administrative situation globally, this volume will be of interest to researchers, scholars, and faculty members involved with education administration research, educational administration theory and leadership.
