Essential Hybrid Work Schedule Guide In Usa:

Leading Experts: How to bring out the best in clever team members Dr Marianne Louw, 2024-11-04 *Leading Experts* explores how to lead expert team members who constitute the intellectual capital of organisations. These clever workers who often have more expertise than their supervisor in their fields do not passively accept being told what to do. They know their worth, they want a voice, and they will leave the organisation if it does not allow them to actualise their potential. In a knowledge economy, we cannot afford to lose them. The book, based on the author's doctoral and subsequent research, presents leadership in this context as primarily a mutually collaborative relationship. It highlights three areas: The type of organisational environment that attracts and keeps intellectual talent; The leader-follower relationship as the key to develop, motivate, and retain expert team members; The individual values and skills that enhance the leader-follower relationship. The benefits of this approach include greater staff retention and knowledge transfer, plus a more fulfilling work life for everyone. This book is suitable for everyone who leads at least one expert follower and for leadership students aspiring to do so.
