Debating The Future Of Philosophy Habermas Rorty And Kolakowski:

Debating the State of Philosophy Jürgen Habermas, Richard Rorty, 1996-10-21 Do we still need philosophical discourse as part of communication within our culture Is philosophical endeavor still valid This book offers the views of some of the most popular distinguished contemporary philosophers who have placed their mark on philosophy Jürgen Habermas Richard Rorty Leszek Kolakowski and Ernest Gellner bring their ideas into confrontation in a unique debate devoted to the present state of philosophy Habermas begins with a comprehensive account of contextualism According to him contextualism is a new form of historicism What are the merits of an approach that takes into account both a historical and a cultural context Is the pragmatism promoted by Richard Rorty an acceptable criticism of our platonic heritage If so does this mean the end of rationality as a regulative ideal of the human universe Rorty's answer is Yes This world renowned American thinker recommends putting a full stop at the end of a narrative which was useful in pursuit of our ancestors purposes but is no longer useful for ours Leszek Kolakowski attempts to undermine the alleged pragmatic merits of pragmatism from the position of an analytic philosopher who continues to value classical elements of philosophical tradition Ernest Gellner also turns against Rorty's pragmatism which he denounces as a product of the Enlightenment roots of American culture and its centuries of political and economic stability The future of Western culture may depend on the answers to the questions asked by these authors

The Future of Reason, Science and Faith J. Andrew Kirk, 2016-12-05 Focusing on the history of ideas this book explores important questions concerning knowledge in relation to philosophy science ethics and Christian faith Kirk contributes to the current debate about the intellectual basis and integrity of Western

culture exploring controversial issues concerning the notions of modernity and post modernity Repositioning the Christian faith as a valid dialogue partner with contemporary secular movements in philosophy and ethics Kirk seeks to show that in post Christian Europe the Christian faith still possesses intellectual resources worthy to be reckoned with This book s principal argument is that contemporary Western society faces a cultural crisis It explores what appears to be an historical enigma namely the question of why Western intellectual endeavours in philosophy and science seem to have abandoned the search for a source of knowledge able to draw together disparate pieces of information provided by different disciplines Kirk draws conclusions particularly in the area of ethical decision making from this apparent failure and invites readers to consider Christian theism afresh as a means for the renewal of culture and society Thinking Jewish Culture in America Ken Koltun-Fromm,2013-12-11 Thinking Jewish Culture in America argues that Jewish thought extends our awareness and deepens the complexity of American Jewish culture This volume stretches the disciplinary boundaries of Jewish thought so that it can productively engage expanding arenas of culture by drawing Jewish thought into the orbit of cultural studies The eleven contributors to Thinking Jewish Cultures together with Chancellor Arnold Eisen s postscript position Jewish thought within the dynamics and possibilities of contemporary Jewish culture These diverse essays in Jewish thought re imagine cultural space as a public and sometimes contested performance of Jewish identity and they each seek to re enliven that space with reflective accounts of cultural meaning How do Jews imagine themselves as embodied actors in America Do cultural obligations limit or expand notions of the self How should we imagine Jewish thought as a cultural performance What notions of peoplehood might sustain a vibrant Jewish collectivity in a globalized economy How do programs in Jewish studies work within the academy These and other questions engage both Jewish thought and culture opening space for theoretical works to broaden the range of cultural studies and to deepen our understanding of Jewish cultural dynamics Thinking Jewish Culture is a work about Jewish cultural identity reflected through literature visual arts philosophy and theology But it is more than a mere reflection of cultural patterns and choices the argument pursued throughout Thinking Jewish Culture is that reflective sources help produce the very cultural meanings and performances they purport to analyze **Debating the State of Philosophy** Jürgen Habermas,Richard Rorty,1996-10-21 Do we still need philosophical discourse as part of communication within our culture Is philosophical endeavor still valid This book offers the views of some of the most popular distinguished contemporary philosophers who have placed their mark on philosophy Durgen Habermas Richard Rorty Leszek Kolakowski and Ernest Gellner bring their ideas into confrontation in a unique debate devoted to the present state of philosophy Habermas begins with a comprehensive account of contextualism According to him contextualism is a new form of historicism What are the merits of an approach that takes into account both a historical and a cultural context Is the pragmatism promoted by Richard Rorty an acceptable criticism of our platonic heritage If so does this mean the end of rationality as a regulative ideal of the human universe Rorty s answer is Yes This world renowned American thinker

recommends putting a full stop at the end of a narrative which was useful in pursuit of our ancestors purposes but is no longer useful for ours Leszek Ko D lakowski attempts to undermine the alleged pragmatic merits of pragmatism from the position of an analytic philosopher who continues to value classical elements of philosophical tradition Ernest Gellner also turns against Rorty s pragmatism which he denounces as a product of the Enlightenment roots of American culture and its centuries of political and economic stability The future of Western culture may depend on the answers to the questions asked by these authors

Rorty, Buber and the Revival of Social Hope Akiba Jeremiah Lerner,2007 *Subject Guide to Books in Print* ,1991 The Philosophy of Richard Rorty Richard Rorty,2010 The Library of Living Philosophers has exceeded even Schilpp s expectations enabling the outstanding philosophers of each generation to do more than clarify by extending and elaborating their thoughts A volume in the Library of Living Philosophers is not merely a commentary on a philosopher s work it is a crucial part of that work

Forthcoming Books Rose Arny,1997 **Perspectives on Philosophy of Communication** Pat Arneson,2007 Perspective on Philosophy of Communication provides readers with an appreciation of philosophy of communication as central to understanding and guiding communicative action in a postmodern culture Each chapter provides readers with an understanding of the perspective of a well recognized philosopher s and addresses how his her work creatively informs current problems and issues in human communication This work provides an opportunity for readers to engage the interpretive creative and ultimately pragmatic spirit of selected philosophers who open the possibilities of communicative content in different ways

The Personalist Forum ,1999 *Twentieth-century European Cultural Theorists* Paul Hansom,2001 Presents biographies of the men and women who wrestled with the complex theoretical problems of twentieth century culture Many of the theorists treated in this volume are concerned with the effects of mass culture technology and consumerism

Ruch filozoficzny ,1999 **The British National Bibliography** Arthur James Wells,1998 *Perspectiva* ,2000 *Bibliografisch repertorium van de wijsbegeerte* ,1997 *The Rorty-Habermas Debate* Marcin Kilanowski,2021-05-01 The Rorty Habermas debate has been written on widely but a full treatment of its importance had to wait until now We have some historical distance from this exchange which extended over three decades and which touches upon the central concerns of numerous fields of study and of social organization From law to politics to philosophy and communication theory and including the basics of action these two towering figures compare their forms of pragmatism Marcin Kilanowski sets the debate in its historical and multilayered context comparing it with criticism and commentary from his own viewpoint and from that of other important thinkers who observed and participated in the famous exchange This book not only provides background in the history of philosophy for a general reader but also will be useful to those who need an abbreviated narrative and compendium of relevant sources for their own thinking and research Kilanowski shows the points of convergence between Rorty and Habermas and also examines the meaning of the outcome of their long exchange Does the result get us any closer to a viable idea of freedom Of responsibility The book suggests some

answers to these and other related questions Debate sobre la situación de la filosofía Jürgen Habermas, Richard Rorty, Leszek Kolakowski, 2000 El manejo de las contingencias y el retorno del historicismo Jürgen Habermas La emancipación de nuestra cultura Richard Rorty Relativismo descubrir e inventar Richard Rorty De la obligación moral la verdad y el sentido común Richard Rorty Una observación sobre Rorty Leszek Kolakowski Observación sobre nuestro relativismo relativo Leszek Kolakowski La noción de racionalidad Richard Rorty **Truth and Progress** Richard Rorty, 1991 The volume complements two highly successful previously published volumes of Richard Rorty's philosophical papers Objectivity Relativism and Truth and Essays on Heidegger and Others The essays in the volume engage with the work of many of today's most innovative thinkers including Robert Brandom Donald Davidson Daniel Dennett Jacques Derrida Jürgen Habermas John McDowell Hilary Putnam John Searle and Charles Taylor The collection also touches on problems in contemporary feminism raised by Annette Baier Marilyn Frye and Catherine MacKinnon and considers issues connected with human rights and cultural differences *After the Demise of the Tradition* Kai Nielsen, 2019-03-07 This ambitious book addresses the end of philosophy debate and the challenge it presents to contemporary philosophy both continental and analytic It is a chain of argument as well as a conversation conducted in the presence of the major contributors to that debate the critics especially Richard Rorty of the dominantly Platonic Cartesian Kantian tradition on the one hand and its defenders on the other Nielsen's account draws on Wittgenstein Quine Davidson Habermas and Foucault among others Nielsen takes Rorty's arguments seriously and insists that they demand a rethinking of the role of philosophy in a world in which the claims of relativism nihilism and historicism loom increasingly larger But unlike most who are impressed with the end of philosophy argument he provides an original and constructive response the development of a holistic antifoundationalist account of philosophy that utilizes a form of critical theory and wide reflective equilibrium in carving out a positive role for a new kind of philosophy This is an important book not just for philosophers but for social theorists for literary critics and indeed for scholars in any field in which the status of knowledge has become problematic
