## THE SUSTAINABLE DEVELOPMENT ACCELERATOR & GLOBAL BUSINESS LEADERSHIP FORUM

Guided by the principles, goals and objectives of WIPDO,

The Sustainable Development Accelerator & Global Business Leadership Forum of the year 2017 (hereinafter referred to as 'the Forum'), recognizes that:

As expressed in the UN Declaration on the right to development, that development is a comprehensive economic, social, cultural and political process, which aims at the constant improvement of the well-being of the entire population and of all individuals on the basis of their active, free and meaningful participation in development and in the fair distribution of benefits resulting therefrom.

The forum also recalls UN Resolution A/RES/70/1 'Transforming our world: the 2030 Agenda for Sustainable Development'

In this vein, the forum further notes that peace, in today's context must go beyond the simple understanding of a cessation of violence or conflict, and also encapsulate the quality of life, sustainable development, wellbeing and consensual collaboration of states, its citizens, and with regard to the environment.

### Grass root communities, Academia, Scientific community and Health professionals

The Forum recognizes that in order to effectively develop and improve the areas set forth above, that it is necessary to establish an ongoing discourse that includes not states alone, but also a strong and robust civil society body that includes academia, health and medical professionals, quantum scientists and spiritual leaders, in order to arrive at non-traditional solutions to pressing issues.

The forum notes that a platform that includes such professionals can yield creative and collaborative processes toward achieving sustainable development.

The forum encourages the formation and development of platforms for discussing and insight-gathering on sustainable development themes at grassroots level, including among the peasant farming communities and traditional medicinal experts.

It also notes the importance of education and health indicators within the discourse of sustainable development and encourages participants of WIPDO sessions to further elaborate and discuss how, as a community and civil society body, the academia, health, spiritual and scientific community can assist in improving these spheres.

### Media and Public Figures

The forum recognizes the importance of the role of public figures and celebrities in furthering discussions and topics pertaining to sustainable development and peace, and welcomes the participation and collaboration of such individuals in the work and forums of WIPDO.

It further notes the strategic and vital role that is played by the media in progressing topics discussed by the forum, and encourages the active participation of media bodies in future forums organized by the WIPDO.

### Way forward

The forum encourages the participants of this July session to recommend via e-mail to the WIPDO Secretariat any further areas of importance that they believe should be at the forefront of WIPDO sessions in the future, to be discussed at the national and international level. The forum calls for the strengthening of collaboration and best practice sharing among the scientific, academic, spiritual and health communities in developing countries, as means to improvement in the systems and procedures to be this regard, the forum notes the immense through technology sharing from developed countries to collaborate and share their developing countries accordingly. The forum encourages the organisation of future forums and platforms to further discuss peace.
