Deconstruction And The Unfinished Project Of Modernity:

Deconstruction and the 'unfinished Project of Modernity' Christopher Norris, 2000-01-01 Deconstruction has been widely and damagingly misunderstood In this provocative new book Christopher Norris challenges the prevalent idea that deconstruction is merely a more specialized philosophical offshoot of these various trends and cultural fashions grouped under the label of postmodernism **After Poststructuralism** Colin Davis, 2004-03 This is a brilliantly argued account of the past and present fortunes of theory It also maps out a way forward for the humanities in which theory will play a crucial part

Philosophy in a Time of Terror Giovanna Borradori, 2004-05-31 The idea for Philosophy in a Time of Terror was born hours after the attacks on 9 11 and was realized just weeks later when Giovanna Borradori sat down with Jürgen Habermas and Jacques Derrida in New York City in separate interviews to evaluate the significance of the most destructive terrorist act ever perpetrated This book marks an unprecedented encounter between two of the most influential thinkers of our age as here for the first time Habermas and Derrida overcome their mutual antagonism and agree to appear side by side As the two philosophers disassemble and reassemble what we think we know about terrorism they break from the familiar social and political rhetoric increasingly polarized between good and evil In this process we watch two of the greatest intellects of the century at work *Post-theory* Martin McQuillan, 1999 The first part of this work addresses the current state of critical theory and questions the postness of the epistemological space after the event of theory as an institutional practice The second part contains examples of the type of work theory has made possible demonstrating the new directions opening up both within theory itself and in cross disciplinary study as a result of theory In this sense post can be understood to be in dialogue with issues relating to postmodernism post Marxism and post feminism

The Reception of Derrida M. Thomas, 2006-05-31 This book explores the cross cultural reception of Derrida's work specifically how that work in all its diversity has come to be identified with word deconstruction It is the first book to consider the cultural reception of Derrida's works its accessible language and structure help to make this a benchmark amongst introductory Derrida studies

Habermas and the Unfinished Project of Modernity Maurizio Passerin d'Entrèves, Seyla Benhabib, 1997 Modernity versus postmodernity Jürgen Habermas The discourse of modernity Fred Dallmayr Deconstruction postmodernism and philosophy Christopher Norris Splitting the difference David C Hoy Habermas and Foucault James Schmidt Intersubjectivity and the monadic core of the psyche Joel Whitebook Two versions of the linguistic turn James Bohman Habermas and the question of alterity Diana Coole The causality of fate Jay M Bernstein The subject of justice in postmodern discourse David Ingram **Modernity's Unfinished Project** Thomas William Donovan (III.), 2004 Technology, Time, and the Conversations of Modernity Lorenzo C. Simpson, 2014-04-23 Technology Time and the Conversations of Modernity takes as its impetus the idea that technology is an embodiment of our uneasiness with finitude Lorenzo Simpson argues that technology has succeeded in granting our wish to domesticate time He shows how this attitude affects our understanding of

the meaning of action and our ability to discern meaning in our lives **Derrida** Madeleine Fagan, 2007 Explores the implications of Derrida's death for the future of critical thought itself includes chapters which engage with contemporary themes within Politics and International Studies Philosophy Literary Studies and Postcolonial Studies Heart of Darkness Joseph Conrad, 2011-03-01 This volume presents the text of the 1921 Heinemann edition of Conrad's classic short novel along with documents that place the work in historical context and critical essays that read *Heart of Darkness* from several contemporary critical perspectives The text and essays are complemented by biographical and critical introductions bibliographies and a glossary of critical and theoretical terms In this third edition the section of cultural documents and illustrations is entirely new as are two recent exemplary critical essays by Gabrielle McIntire and Tony C Brown that synthesize a variety of current critical approaches Proceedings and Addresses of the American Philosophical Association American Philosophical Association, 2002 List of members in v 1 **Muzikološki zbornik**, 2005 *New Formations*, 1987 Journal of Literary Criticism, 2004 **Principia**, 2000 *Social Inclusion: Societal and Organizational Implications for Information Systems* Eileen Trauth, 2006-06-15 This book presents the proceedings of the Working Conference on the societal and organizational implications for information systems of social inclusion The contributed papers explore technology design and use in organizations and consider the processes that engender social exclusion along with the issues that derive from it The conference sponsored by the International Federation for Information Processing Working Group 8.2 was held in Limerick Ireland in July 2006 Rorty's Politics of Redescription Gideon Calder, 2007 Richard Rorty is among the most cited influential and notorious of recent philosophers This work addresses Rorty's work in terms of social and political philosophy *Interrogating Cultural Studies* Paul Bowman, 2003-01-20 Critical account of the cultural studies field with interviews from some of the world's leading cultural theorists *IRASM*, 2004 **International Philosophical Quarterly**, 1961
