Deconstruction And Theology:

Deconstruction and Theology Thomas J. J. Altizer, 1982 **The Trespass of the Sign** Kevin Hart, 1991-08-30 The Trespass of the Sign offers an account of the relations between deconstruction and theology Kevin Hart argues that contrary to popular thought on the topic deconstruction does not have an antitheological agenda Rather deconstruction seeks to question the metaphysics of any theology Hart pays particular attention to mystical theology as nonmetaphysical theology From publisher s description What Would Jesus Deconstruct? (The Church and Postmodern Culture) John D. Caputo, 2007-11-01 This provocative addition to The Church and Postmodern Culture series offers a lively rereading of Charles Sheldon s In His Steps as a constructive way forward John D Caputo introduces the notion of why the church needs deconstruction positively defines deconstruction s role in renewal deconstructs idols of the church and imagines the future of the church in addressing the practical implications of this for the church s life through liturgy worship preaching and teaching Students of philosophy theology religion and ministry as well as others interested in engaging postmodernism and the emerging church phenomenon will welcome this provocative non technical work **Deconstructing Theology** Mark C. Taylor, 1982 *Epiphanies of Darkness* Charles E. Winquist, 1999 With Epiphanies of Darkness The Davies Group is proud to issue the revision of a work that is so important a part of the literature of deconstructive theology as a key title in our new series in Philosophical Cultural Studies in Religion Few religious thinkers have the philosophical sophistication of this author This book is profound in its ability to bring together much of what is deepest most disturbing in our age with the reality of a theological desire for more Epiphanies of Darkness represents a searching courageous appraisal of the state of theological discourse as well as a powerful intervention into that discourse with the aim of completely reconstituting what we mean by theology Charles E Winquist PhD University of Chicago joined the faculty of Syracuse University as Thomas J Watson Professor of Religion in 1986 His research teaching specialties are philosophical theology critical theory hermeneutics Among his publications are Desiring Theology 1995 Theology at the End of the Century 1990 Practical Hermeneutics 1980 Homecoming 1978 Communion of Possibility 1975 The Transcendental Imagination 1972 Professionally active at the national level he has held several offices in the American Academy of Religion served as executive director from 1979 82 Derrida and Negative Theology Jacques Derrida, 1992-08-25 This book explores the thought of Jacques Derrida as it relates to the tradition of apophatic thought negative theology and philosophy in both Western and Eastern traditions Following the Introduction by Toby Foshay two of Derrida s essays on negative theology Of an Apocalyptic Tone Newly Adopted in Philosophy and How to Avoid Speaking Denials are reprinted here These are followed by essays from a Western perspective by Mark C Taylor and Michel Despland and essays from an Eastern perspective by David Loy a Buddhist and Harold Coward a Hindu In the Conclusion Jacques Derrida responds to these discussions *Radical Theology and Emerging Christianity* Katharine Sarah Moody, 2016-03-03 The theological turn in continental philosophy and the turn to Paul in political philosophy

have occasioned a return to radical theology a tradition whose philosophical heritage can be traced to the death of God announced in the work of Nietzsche and Hegel John D Caputo's deconstructive theology and Slavoj Žižek's materialist theology are two radical theologies that explore what it might mean to pass through the death of God and to abandon this experience as specifically Christian Radical Theology and Emerging Christianity demonstrates how these theologies are transforming everyday religious practices through an examination of the work of Peter Rollins and Kester Brewin two figures at the radical margins of a contemporary expression of Western religiosity called emerging Christianity The author uses her analysis of all four figures to argue that deconstructive practices can enable religious communities to become part of a wider materialist collective in which the death of God continues to resonate Pushing the methodological boundaries of philosophy of religion by examining religious practices as the site of philosophical signification the book challenges scholars and practitioners alike to a new and more demanding dialogue between theory and practice Erring Mark C.

Taylor,1987-04-15 Erring is a thoughtful often brilliant attempt to describe and enact what remains of and for theology in the wake of deconstruction Drawing on Hegel Nietzsche Derrida and others Mark Taylor extends and goes well beyond pioneering efforts The result is a major book comprehensive and well informed G Douglas Atkins Philosophy and Literature Many have felt the need for a study which would explicate in coherent and accessible fashion the principal tenets of deconstruction with particular attention to their theological implications This need the author has addressed in a most impressive manner The book's effect upon contemporary discussion is apt to be and deserves to be far reaching Walter Lowe Journal of Religion *Derrida and Theology* Steven Shakespeare,2009-06-25 Jacques Derrida a name to strike fear into the hearts of theologians His ideas have been hugely influential in shaping postmodern philosophy and its impact has been felt across the humanities from literary studies to architecture However he has also been associated with the specters of relativism and nihilism Some have suggested he undermines any notion of objective truth and stable meaning Derrida is now increasingly seen as a major contributor to thinking about the complexity of truth responsibility and witnessing Theologians and biblical scholars are engaging as never before with Derrida's own deep rooted reflections on religious themes From the nature of faith to the name of God from Messianism to mysticism from forgiveness to the impossible he has broken new ground in thinking about religion in our time His ideas and writing style remain highly complex however and can be a forbidding prospect for the uninitiated This book examines his philosophical approach his specific work on religious themes and the ways in which theologians have interpreted adopted and disputed them Engaging Deconstructive Theology Ronald T. Michener,2007 Engaging Deconstructive Theology presents an evangelical approach for theological conversation with postmodern thinkers Themes are considered from Derrida Foucault Mark C Taylor Rorty and Cupitt developing dialogue from an open minded evangelical perspective Ron Michener draws upon insights from radical postmodern thought and seeks to advance an apologetic approach to the Christian faith that acknowledges a mosaic of human sources including experience

literature and the imagination **What Would Jesus Deconstruct?** John D. Caputo, 2014-05-14 Uses the postmodern theme of deconstruction to suggest a constructive and provocative way forward for the church *Deconstruction in a Nutshell* Jacques Derrida, 2020-11-03 This volume now with a substantial new Introduction represents one of the most lucid compact and reliable introductions to Derrida and deconstruction available in any language Responding to questions put to him at a roundtable held at Villanova University in 1994 Jacques Derrida leads the reader through an illuminating discussion of the central themes of deconstruction Speaking in English and extemporaneously Derrida takes up with unusual clarity and great eloquence such topics as the task of philosophy the Greeks justice responsibility the gift community and the messianic Derrida refutes the charges of relativism that are often leveled at deconstruction by its critics and sets forth the profoundly affirmative and ethico political thrust of his work The roundtable is marked by an unusual clarity that continues into the second part of the book in which one of Derrida s most influential readers John D Caputo elaborates upon Derrida s comments and supplies material for further discussion This edition also includes a substantial new Introduction by Caputo that discusses the original context of the book and traces the development of deconstruction since Derrida s death in 2004 from the rise of new materialisms to return to religion Long one of the most lucid and reliable introductions to Derrida and deconstruction available in any language and an ideal volume for students *Deconstruction in a Nutshell* will also prove illuminating for those already familiar with Derrida s work **The Journey of Modern Theology** Roger E. Olson, 2013-11-01 In this major revision and expansion of the classic 20th Century Theology 1992 coauthored with Stanley J Grenz Roger Olson tells the full story of modern theology from Descartes to Caputo from the Kantian revolution to postmodernism now recast in terms of how theologians have accommodated or rejected modernity *Hope in a Secular Age* David Newheiser, 2019-12-19 Uses premodern theology and postmodern theory to show the endurance of religious and political commitments through the practice of hope **Dis-Enclosure** Jean-Luc Nancy, Michael B. Smith, 2009-08-25 From one of France s leading contemporary thinkers an astutely reasoned philosophical text offering a revolutionary analysis of theistic religion The Midwest Book Review This book is a profound and eagerly anticipated investigation into what is left of a monotheistic religious spirit notably a minimalist faith that is neither confessional nor credulous Articulating this faith as works and as an objectless hope Nancy deconstructs Christianity in search of the historical and reflective conditions that provided its initial energy Working through Blanchot and Nietzsche re reading Heidegger and Derrida Nancy turns to the Epistle of Saint James rather than those of Saint Paul discerning in it the primitive essence of Christianity as hope The religion that provided the exit from religion as he terms Christianity consists in the announcement of an end It is the announcement that counts however rather than any finality In this announcement there is a proximity to others and to what was once called parousia But parousia is no longer presence it is no longer the return of the Messiah Rather it is what is near us and does not cease to open and to close a presence deferred yet imminent In a demystified age where we are left with a

vision of a self enclosed world in which humans are no longer mortals facing an immortal being but entities whose lives are accompanied by the time of their own decline parousia stands as a question Can we venture the risk of a decentered perspective such that the meaning of the world can be found both inside and outside within and without our so immanent world

Religion With/Out Religion James Olthuis,2003-09-02 Written in response to John Caputo s The Prayers and Tears of Jacques Derrida this work gathers together cutting edge theologians and philosophers to examine the relationship between Derridan deconstruction and religion Containing a lengthy counter response by Caputo as well as an interview Religion With Out Religion will be required reading for all those involved in contemporary theological debate

Reexamining Deconstruction and Determinate Religion J. Aaron Simmons,Stephen Minister,2012 Draws on both continental and analytic philosophy to challenge the prominent paradigm of a religion without religion proposed in a deconstructive philosophy of religion the authors offer instead a philosophical basis for practicing determinate religions that rejects binary options between undecidability and safety or between skepticism and dogmatism Provided by publisher

Luther after Derrida Marisa Strizzi,2023-04-15 This book creatively engages Martin Luther s theology and Jacques Derrida s deconstruction in a systematic theological enterprise Guided by the general question of how to think about theology in postmodern times within a given tradition Marisa Strizzi meticulously follows deconstruction at work focusing on distinctive theological elaborations She argues that Luther s theology has a significant deconstructive drive and through the thorough reading of texts illustrates the ways in which such theology is interactive with the thought of Derrida Intersections echoes and mirrors allow a happy exchange in which the vital theological topics of Luther meet key deconstructive motifs Thus the cross the Deus absconditus scriptura fides gratia and Christo encounter khora critique the gift faith the messianic and autoimmune sovereignty Strizzi solidly sustains that the deconstructive reading of theological traditions proves to be a critical constructive way of honoring them

Regenerate Tony Scarcello,2020-09-24 Loss Fear Doubt What does anything mean when your ground of being is stripped away Tony met God when he was four years old through the love of his mother When he was twelve he realized he had a crush on one of his male friends and grew convinced God would have nothing to do with him At sixteen Tony reencountered God who affirmed that nothing stood between them but love When he was twenty three married to the girl of his dreams and on staff at a church Tony s secret came out and he came close to losing it all What followed was arduous years of deconstruction losing everything he thought he knew about God only to rediscover God in the mystery This God was not a new God it was the same one as before just seen with regenerated faith This God was more beautiful and restorative than Tony could have ever imagined Tony s story is not uncommon in the modern evangelical landscape Thousands of people throughout the West are experiencing a crisis of faith that is commonly referred to as deconstruction With raw honesty Tony uses his own story as a starting point for a dialogue on the deconstruction process Tony unpacks what the deconstruction process is why it happens and how the church can help people experiencing a crisis of

faith without worsening it along the way In this memoir Tony candidly pleads for the church to make a turn not to a trendier progressive version of Christianity nor to a stricter form of fundamentalism but to the revolutionary Jesus centered movement that changed the face of the earth A movement once better known for its society of healing love than its dogma

Adoration: The Deconstruction of Christianity II Jean-Luc Nancy, 2013 Adoration is the second volume of the Deconstruction of Christianity following Dis Enclosure The first volume attempted to demonstrate why it is necessary to open reason up not to a religious dimension but to one transcending reason as we have been accustomed to understanding it the term adoration attempts to name the gesture of this dis enclosed reason Adoration causes us to receive ignorance as truth not a feigned ignorance perhaps not even a nonknowledge nothing that would attempt to justify the negative again but the simple naked truth that there is nothing in the place of God because there is no place for God The outside of the world opens us in the midst of the world and there is no first or final place Each one of us is at once the first and the last Each one each name And our ignorance is made worse by the fact that we do not know whether we ought to name this common and singular property of all names We must remain in this suspense hesitating between and stammering in various possible languages ultimately learning to speak anew In this book Jean Luc Nancy goes beyond his earlier historical and philosophical thought and tries to think or at least crack open a little to thinking a stance or bearing that might be suitable to the retreat of God that results from the self deconstruction of Christianity Adoration may be a manner a style of spirit for our time a time when the spiritual seems to have become so absent so dry so adulterated The book is a major contribution to the important strand of attempts to think a post secular situation of religion
