Indian red with ultramarine blue or chocolate purple brown and white with a little orange chrome this lower portion of the wall being separated from the upper cream coloured portion by a line of black an inch broad or better by a double line the upper line being an inch broad and the lower line threeeighths of an inch the lines being separated from each other by fiveeighths of the red or chocolate I like the formation of a dado for it affords an opportunity of giving apparent stability to the wall by making its lower portion dark and furniture is invariably much improved by being seen *The President's Report* Cooper Union for the Advancement of Science and Art,1916 *Report* Association for the Advancement of Women,1892
