Deep Economy Hans-Dirk van Hoogstraten, 2001 Both true and false notions of connection exist in society and in the human imagination In this work economic and ecological claims of supposed connectedness are compared on a profound level Starting with an historical analysis of the ethical and economic thought of Aristotle and Adam Smith the two main representatives of the first and second waves of Enlightenment this discussion clarifies the value of the term deep economy Concern about current ecological problems often confronts us with the history theories and experiences of natural and spiritual connectedness This book adds an indispensable factor It urges us to take into serious account the actual state of economic affairs Discussion of the clash between ecology and economy has long been avoided due to the paralysis it threatens Dr Van Hoogstraten however searched for a paramount view and found it in religion In his in depth discussion of the character of both ecology and economy the hidden religious pretensions of both fields are uncovered A merely moral approach to the economy s devastating effects is deemed ineffective the author offers readers a

perspective beyond good and evil The adoption of this Nietzschean approach he calls facing the fate Exposing unexplored forgotten treasures in Jewish wisdom Deep Economy lays out a possible way to proceed towards a new connectedness He confronts us with the necessity of rethinking conceptions of life and death sex and birth wealth and work He convincingly questions and explores hidden places both in society as a whole and in human imagination where basic decisions concerning living together are made Unlike established economic thought Deep Economy leads us through global economy s aspects of exclusion and enrichment of curse and blessing to the author s unique world view presented in this book Call it a provoking textbook for class discussion a talking piece for politicians and political scientists a philosophical work for economists an interpretative study for theologians and philosophers to work with or call it Deep Economy      **God of Mercy, God of Relationship** Various,2002-10 There is a growing company of God seekers discontent with words about God hungry for an experience with God It is for these cravers of God that this collection of devotional writings is gathered Serving as meditations for the hungry soul this collection is only a starting point Each revelation will only whet the appetite and leave the reader wanting more Written by forty contributing authors Deeper Walk s five sections cover the myriad of manifestations of God in a Christian s walk God of the Desert God of Mercy God of Greatness and God of Relationship Bonus material includes the essays on living out true faith and impacting culture like God Isn t Fair Christianity Is for Losers and Getting Out of the Faith Ghetto      The Best Fifty Books of the Greatest Authors, Condensed for Busy People Benjamin Rush Davenport,1895      **Closer Walk New Testament** Zondervan Staff,1990-11      **Tracts for Spiritual Reading** John Furniss (C.Ss.R.),1874      *Closer Walk New Testament* Bruce Wilkinson,Calvin W.
