**The Daddy Shift** Jeremy A. Smith, 2009-06-01 A revealing look at stay at home fatherhood for men their families and for American society It s a growing phenomenon among American families fathers who cut back on paid work to focus on raising children But what happens when dads stay home What do stay at home fathers struggle with and what do they rejoice in How does taking up the mother s traditional role affect a father s relationship with his partner children and extended family And what does stay at home fatherhood mean for the larger society In chapters that alternate between large scale analysis and intimate portraits of men and their families journalist Jeremy Adam Smith traces the complications myths psychology sociology and history of a new set of social relationships with far reaching implications As the American economy faces its greatest crisis since the Great Depression Smith reveals that many mothers today have the ability to support families and fathers are no longer narrowly defined by their ability to make money they have the capacity to be caregivers as well The result Smith argues is a startling evolutionary advance in the American family one that will help families better survive the twenty first century As Smith explains stay at home dads represent a logical culmination of fifty years of family change from a time when the idea of men caring for children was literally inconceivable to a new era when at home dads are a small but growing part of the landscape Their numbers and cultural importance will continue to rise and Smith argues that they must rise as the unstable global creative technological economy makes flexible gender roles both more possible and more desirable But the stories of real people form the heart of this book couples from every part of the country and every walk of life They range from working class to affluent and they are black white Asian and Latino We meet Chien who came to Kansas City as a refugee from the Vietnam War and today takes care of a growing family Kent a midwestern dad who nursed his son through life threatening disabilities and Kent s wife Misun who has never doubted for a moment that breadwinning is the best thing she can do for her family Ta Nehisi a writer in Harlem who sees involved fatherhood as the ultimate service to black people Michael a gay stay at home dad in Oakland who enjoys a profoundly loving and egalitarian partnership with his husband and many others Through their stories we discover that as America has evolved and diversified so has fatherhood
