Artificial Intelligence in Our Language Learning Classrooms Louise Ohashi, Mary Hillis, Robert Dykes, 2025-11-21
Artificial Intelligence in Our Language Learning Classrooms brings together leading researchers and practitioners exploring the pedagogical ethical and emotional dimensions of generative AI GenAI in second language L2 education Across two major sections L2 skill development and broader educational perspectives contributors offer theory informed and practice oriented insights into how GenAI can transform language teaching and learning Topics include conversational AI and chatbots writing development extensive reading pragmatics instruction ethics emotions and teacher led inquiry Through a balance of optimism and critical reflection this volume situates AI integration within established educational frameworks supporting teachers as they navigate the rapidly evolving technological landscape The book emphasizes teacher agency responsible innovation and the centrality of human connection in AI enhanced classrooms By combining empirical research case studies and reflective narratives it addresses both opportunities and challenges in using GenAI tools for language education This comprehensive resource is essential reading for language teachers researchers and teacher educators seeking to build informed ethical and pedagogically grounded approaches to AI integration in the L2 classroom *We Can Teach That* Ewa Dziedzic-Elliott, 2024-11-28
Information literacy is a complex subject that finally arrived at the doorstep of school libraries For decades academic researchers have been trying to capture the essence of information literacy its educational cognitive and civic value The collection of book chapters offered in *We Can Teach That* is a handbook that can be used as an inspiration for teaching various types of literacy visual digital multicultural health and more The book asks important questions When do we start teaching information literacy How do we teach it How does it affect our students at their education level How does it prepare them for their post high school adult life Does it impact their transition to college or career Dziedzic Elliott and her collaborators provide a range of best practices and concepts that inspire thinking about teaching information literacy at all levels Although written with school librarians in mind the book can be easily adapted by teachers school administrators and even public librarians who are looking to incorporate information literacy elements in their daily practices The book challenges the reader to rethink what they know about digital or tech literacy breaks some stereotypical concepts about multicultural literacy and highlights the importance of literacies even in adulthood

Generative AI and Education B. Mairéad Pratschke, 2024-08-27 This volume addresses the gap in knowledge around generative AI and its applications in education It draws on the recent history of technological innovation and digital pedagogies locating generative AI in the contemporary discourse around education futures It argues that a new hybrid model of education is emerging requiring educational institutions to embed generative AI into course and programme design delivery and assessment It also proposes a shift from a focus on learning as output to learning as a process and explores what that shift might look like Grounded in educational theory it offers actionable pedagogy informed guidance on how to position

AI as a collaborator in the construction of learning in a manner that is congruent with the values and aims of education It offers advice based on evidence based digital pedagogy including frameworks for effective teaching and learning with generative AI that enable educators and designers to put these ideas into practice The book also explores the wider context informing this shift connecting narratives from governments and industry leaders on the strategic importance of generative AI and lifelong learning learning agility and future skills that make the case for the integration of competency based assessment into mainstream education Finally going beyond pedagogy and practice it considers some of the broader issues including limitations and ethics and the implications of integrating generative AI into institutional planning and design and includes a sample roadmap for education leaders to start the process of integrating generative AI into their institutions This work approaches the topic of generative AI from the vantage point of educators by addressing themes and concerns that will resonate with professionals in the sector

A High School English Teacher's Guide to Writing Memoir Coley Conter, Mary Ehrenworth, Lauren Gould, 2025-12-31 A High School English Teacher's Guide to Writing Memoir is more than a set of writing lessons it's a call to see your students and help them see themselves through the power of story With more than forty flexible lessons and a robust suite of downloadable charts tools mentor texts and AI recommendations this guide helps you teach memoir as courageous storytelling and self discovery Students will write honestly revise bravely and publish in formats that matter to them from anthologies to picture books to multimodal memoirs Grounded in research and practical classroom strategies this guidebook walks teachers through each stage of memoir writing from generating story ideas and experimenting with structure to revising with intention and experimenting with conventions Along the way it centers mentor text inquiry writing partnerships and author's craft It also embraces new technologies including AI as part of the writing process so your students will emerge confident and adept as digital writers Whether your students are excavating memories wrestling with identity or discovering their voice for the first time this guide helps them transform raw moments into powerful memoirs And for you the teacher it brings a new kind of classroom intimacy a deepened community and the reminder that storytelling is the heart of being known Let memoir become a source of meaning connection and growth for every writer in your room

Rethinking Language Education in the Age of Generative AI Zhongfeng Tian, Chaoran Wang, 2025-05-20 Rethinking Language Education in the Age of Generative AI bridges the gap between theory research and practice in AI and language education Through conceptual pieces empirical studies and practical applications this book

provides critical insights and implications for reimagining language education in the age of generative AI. The contributors explore a wide range of issues, reflections, and innovations in AI and language education across diverse contexts including English as a Second Language (ESL), English as a Foreign Language (EFL), foreign language learning, postsecondary pathways, programs for international students, and language teacher education programs. Topics examined include critical AI literacy, GenAI-informed second language teaching and assessment, teacher and student perceptions, tool development for language learning, as well as ethical considerations, policies, and guidelines. The book incorporates interdisciplinary perspectives such as L2 foreign language studies, education, and applied linguistics, as well as global insights from countries like the United States, Canada, South Korea, Thailand, Indonesia, and the Philippines. This book is essential for students and researchers seeking to leverage AI to enhance language teaching and learning in innovative, critical, ethical, and responsible ways.
