Breakthrough Teaching and Learning Tracy Gray, Heidi Silver-Pacuilla, 2011-03-24 The many technology related educational changes of the past decade have been propelled by even greater changes in the general consumer technology landscape Education has become increasingly entwined with the digital consumer landscape We are no longer asking whether digital materials and tools should be integrated into teaching and learning but how and how well Meanwhile the overall academic performance of U S students has not kept pace with our international peers Many policymakers have called for increased attention to students 21st century skills and work readiness pointing to the critical role technology should play in educational innovation These changes mean that many mainstream accessible technologies can be used in the classroom to benefit a diverse population of learners including students with disabilities and English language learners reflecting the national shift from separate special education programs to more inclusive classrooms Changes to policies and standards have pushed assistive and accessible technologies to the forefront including the Higher Education Opportunity Act of 2008 which requires teacher preparation programs to address educational technology and principles of universal design for learning UDL and the National Instructional Materials Accessibility Standard NIMAS which creates a public private infrastructure to provide more timely delivery of digital text to students with physical and print disabilities This volume represents pioneering ideas that examine how accessible educational technologies can be harnessed for breakthrough learning for all students Chapters will cover innovation trends in educational and assistive technologies cognitive and neuroscience findings on how individual differences impact technology use and choice the intersection of educational leisure health habits and exergaming the use of social networking tools by students with and without disabilities the use of social networking for teacher professional learning communities the future of assessments for decision making and an analysis of the habits of mind and work traits of innovators NCTI has interviewed over the past five years

What Work Means Claudia Strauss, 2024-06-15 What Work Means goes beyond the stereotypes and captures the diverse ways Americans view work as a part of a good life Dispelling the notion of Americans as obsessive workaholics Claudia Strauss presents a

more nuanced perspective While some live to work others prefer a diligent 9 to 5 work ethic that is conscientious but preserves time for other interests Her participants often enjoyed their jobs without making work the focus of their life These findings challenge laborist views of waged work as central to a good life as well as post work theories that treat work solely as exploitative and soul crushing Drawing upon the evocative stories of unemployed Americans from a wide range of occupations from day laborers to corporate managers both immigrant and native born Strauss explores how diverse Americans think about the place of work in a good life gendered meanings of breadwinning accepting financial support from family friends and the state and what the ever elusive American dream means to them By considering how unemployment experiences diverge from joblessness earlier What Work Means paves the way for a historically and culturally informed discussion of work meanings in a future of teleworking greater automation and increasing nonstandard employment *New Directions in Science and Environmental Communication: Understanding the Role of Online Video-Sharing and Online Video-Sharing Platforms for Science and Research Communication* Joachim Allgaier, Asheley R.
