Renandya, Christine Coombe, Yazid Basthomi, 2018-06-22 This proceedings book captures a wide range of timely themes for readers to be able to foresee the digital era s impact on English teaching in non English speaking countries English used in the global environment the frequent mobile communication and the use of AI based translators are bringing about dramatic changes in our English language learning and teaching Who can provide us the wisdom to know what to do Those scholars going through these complex environmental changes A collection of puzzle pieces may bring us a better contour for the future than a perfectly edited book It s indeed a pleasure reading these insightful pieces to gain wisdom for the future of ELT practices in global contexts Sourcing start-up success Adrian Roessler, 2011-08-31 Master s Thesis from the year 2011 in the subject Business economics Company formation Business Plans grade A Vienna University of Economics and Business language English abstract The purpose of this paper is three fold First it is intended to establish a new framework by combining literature streams on start up success with research on cultural and institutional environments Although a wide array of literature on start ups cultural and institutional literature exists connecting research is underdeveloped This paper hence sets out to bridge these differing streams of literature 1 In fact one has to bear in mind

that although always termed a worldwide crisis many developing countries and BRIC states have not been affected Second drawing upon the impact of globalization and the Internet new implications for the sourcing of business ideas will be generated A lot of attention has been paid to the development of start ups and the characteristics of entrepreneurs However the step in the development chain where the idea is generated has received comparably low attention This paper thus tries to explore some sources and mechanisms evolved through globalization and use of the Internet Third a case study designed to explore the above mentioned new framework and implications is expected to support the development of a new model It is therefore the overall purpose of this paper to produce a theoretically grounded and practically applicable model A model that should cover the most important aspects when copying and implementing a business concept from a different country
