One **A Model Civil Procedure Code for England and Wales** John Sorabji, 2024-10-14 Civil procedure law is integral to our understanding of access routes to justice dispute resolution and ultimately the rule of law However the field is rapidly changing shifting dispute resolution away from courts and judgments towards other legal pathways such as negotiation mediation arbitration and Ombudsman Similarly the increasing digitisation of society and looming potential of AI will profoundly influence future reforms Civil justice is thus at a critical turning point In response John Sorabji proposes a new model civil procedure code for England and Wales Building on the work of the ALI UNIDROIT Principles of Transnational Civil Procedure and the ELI UNIDROIT Model European Rules of Civil Procedure he articulates a simplified principle based seventeen part approach that covers all major stages from issue to enforcement with sections on costs and funding provisional measures access to evidence and privileges case statements hearings and dispute management Highlighting that civil courts are just one part of a wider civil justice ecosystem Sorabji promotes the wealth of avenues available for dispute resolution and charts how these should be co ordinated in the future He outlines new ways to efficiently incorporate breakthroughs in digitisation and preventive and consensual forms of justice and also explores likely shifts in the purpose of procedural codes as digitisation evolves while underscoring the consistent need for judicial independence and accountability Ultimately Sorabji posits that procedural codes should guide not only the process of litigation but those who design digital procedures and test their propriety in the future Advanced Information Systems Engineering John Krogstie, Stefanie Rinderle-Ma, Gertri Kappel, Henderik A. Proper, 2025-07-19 The two volume set LNCS 15701 15702 constitutes the proceedings of the 37th International Conference on Advanced Information Systems Engineering CAiSE 2025 which was held in Vienna Austria during June 16 17 2025 The 35 papers included in the proceedings were carefully reviewed and selected from 229 submissions They were organized in topical sections as follows Part I Modelling with LLM Security Sustainability Chatbots and social networks process monitoring IS development and usage pre processing and forecasting Part II Comprehension explanation and recommendation process discovery system architecture and privacy conformance checking cloud systems extending process modelling ontologies and knowledge graphs Proceedings of the 5th International Conference on Internet, Education and Information Technology (IEIT 2025) Hemachandran Kannan, Ouahmiche Ghania, Intakhab Alam Khan, Abdul Samad bin Shibghatullah, 2025-09-01 This book is an open access With the development of science and technology information technology and information resources should be actively developed and fully applied in all fields of education and teaching to promote the modernization of education and cultivate talents to meet the needs of society From the technical point of view the basic characteristics of educational informatization are digitalization networking intelligentization and multi media From the perspective of education the basic characteristics of educational information are openness sharing interaction and cooperation With the advantage of the network it can provide students with a large amount of information and knowledge by combining different knowledge and information from various aspects at a high frequency

Therefore we have intensified efforts to reform the traditional teaching methods and set up a new teaching concept from the interaction between teachers and students in the past to the sharing between students. In short, it forms a sharing learning mode. For all students strive to achieve students learning independence initiative and creativity. To sum up, we will provide a quick exchange platform between education and information technology so that more scholars in related fields can share and exchange new ideas. The 5th International Conference on Internet Education and Information Technology IEIT 2025 will be held on May 16-18, 2025 in Hangzhou, China. The IEIT 2025 is to bring together innovative academics and industrial experts in the field of Internet Education and Information Technology to a common forum. The primary goal of the conference is to promote research and developmental activities in Internet Education and Information Technology, and another goal is to promote scientific information interchange between researchers, developers, engineers, students, and practitioners working all around the world. The conference will be held every year to make it an ideal platform for people to share views and experiences in international conferences on Internet Education and Information Technology and related areas. *Web3*

Applications Security and New Security Landscape Ken Huang, Carlo Parisi, Lisa JY Tan, Winston Ma, Zhijun William Zhang, 2024-06-04. With the recent debacle surrounding the cryptocurrency exchange FTX and the crypto trading company Alameda Research, the importance of grasping the security and regulation of Web3 cryptocurrency and blockchain projects has been magnified. To avoid similar economic and security failures in future Web3 projects, this book provides an essential guide and a comprehensive and systematic approach to addressing security concerns. Written by experts in tech and finance, it provides an objective, professional, and in-depth analysis of security and privacy issues associated with Web3 and blockchain projects. The book primarily focuses on Web3 applications and ecosystem components such as the stablecoin, decentralization, exchange, DEX, decentralized finance, DeFi, non-fungible token, NFT, decentralized autonomous organization, DAO, and crypto exchange. It also discusses various security issues and their manifestation in Web3, such as ransomware, supply chain, software attacks, AI security, and quantum security. Moreover, it provides valuable countermeasures and best practices for individual users as well as Web3 application development teams to consider when designing and implementing Web3 applications. This book is an excellent resource for a diverse range of readers and will particularly appeal to Web3 developers, architects, project owners, and cybersecurity professionals seeking to deepen their knowledge of Web3 security.
