How To Get Entry Level Remote Jobs Tips For Dads:

Apprentice Nation Ryan Craig,2023-11-07 College isn't for everyone. It's time to challenge the status quo and embrace the potential of apprenticeships in tech, healthcare, finance, and more, which can provide a sustainable pathway to economic opportunity. For decades, college has been the only respectable way to access the world of work despite paralyzing tuition and a dire lack of practical skills that has left 40 percent of college graduates underemployed, unfulfilled, and struggling to repay student loan debt. Education and workforce expert Ryan Craig explores how a modern apprenticeship system will allow students and job seekers to jump start their careers by learning while they earn, ultimately leading to greater workforce diversity and geographic mobility. With a deep dive into the history behind America's outdated college system, Craig reveals the origins of the student debt crises and admissions scandals. Why apprenticeships are an effective pathway to career opportunity. What America can do to catch up with other nations making apprenticeship opportunities broadly available. Where students and job seekers can go to land an apprenticeship. Featuring a directory of US apprenticeship programs by industry and location. Apprentice Nation is an accessible blueprint for a country where young Americans of all backgrounds can launch careers in a variety of in-demand fields. With just a few common sense changes to education and workforce development, an apprentice nation will put the American Dream within reach for everyone.

Getting Me Cheap Amanda Freeman, Lisa Dodson, 2022-11-29 Two groundbreaking sociologists explore the way the American dream is built on the backs of working poor women. Many Americans take comfort and convenience for granted. We eat at nice restaurants, order groceries online, and hire nannies to care for kids. *Getting Me Cheap* is a riveting portrait of the lives of the low-wage workers, primarily women, who make this lifestyle possible. Sociologists Lisa Dodson and Amanda Freeman follow women in the food, health care, home care, and other low-wage industries as they struggle to balance mothering with bad jobs and without public aid. While these women tend to the needs of well-off families, their own children frequently step into premature adult roles, providing care for siblings and aging family members. Based on years of in-depth field work and hundreds of eye-opening interviews, *Getting Me Cheap* explores how America traps millions of women and their children into lives of stunted opportunity and poverty in service of giving others of us the lives we seek. Destined to rank with works like *Evicted* and *Nickel and Dimed* for its revelatory glimpse into how our society functions behind the scenes, *Getting Me Cheap* also offers a way forward with both policy solutions and a keen moral vision for organizing women across class lines.

Building Tomorrow's Biomedical Workforce: Evaluation of How Evidence-Based Training Programs Align Skill Development and Career Awareness with a Broad Array of Professions Adriana Bankston, Rebekah L. Layton, Audra Van Wart, 2025-08-27 Building the future STEM workforce requires robust federal investments to support the next generation of innovators as well as systemic changes to enable graduate and postdoctoral researchers to transition with confidence into the biomedical workforce. This effort involves the transformation of the biomedical research enterprise and training environment at all levels.

but especially at the predoctoral and postdoctoral levels Innovative initiatives in education and training as well as career and professional development of biomedical trainees are necessary to build upon the robust biomedical workforce of today and create and sustain a diverse innovative and highly trained biomedical workforce of tomorrow An important aspect of supporting the biomedical workforce relates to changes within training and the research enterprise with opportunities for re imagining what STEM education should look like at different levels including providing agency for junior scientists in the field The future of the field should focus on inclusivity supporting trainees from different backgrounds and with diverse perspectives including but not limited to intersectional identities in race ethnicity gender sexual orientation first generation status and international talent in STEM This requires critical policy changes in order to support the transition of biomedical research professionals into the labor market *InfoWorld* ,2000-09-04 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects
