The Handbook of Artificial Intelligence and Journalism Aynur Sarisakaloğlu, Martin Löffelholz, 2025-12-23 Presents a comprehensive global overview of AI driven journalism and its transformative impact on media practices As artificial intelligence AI continues to reshape the media landscape The Handbook of Artificial Intelligence and Journalism provides the first comprehensive academic exploration of the intersection between AI technologies and journalism Edited by Aynur Sarisakaloğlu and Martin Löffelholz this foundational volume brings together 37 leading scholars from six continents to examine how AI is redefining the structures practices and epistemologies of journalism Organized around key thematic areas the Handbook investigates the driving forces propelling the algorithmic transformation and unveils emerging trends in journalistic practice and journalism research moving beyond Western centric perspectives to incorporate diverse global experiences and knowledge production Twenty eight original chapters address systemic shifts such as evolving structures of media organizations changing roles of actors transformations in news production routines and shifting patterns of news consumption By integrating theoretical empirical and practical perspectives the Handbook sets the stage for a new research agenda for understanding AI driven journalism on a global scale Containing rigorous interdisciplinary scholarship and broad geographical coverage The Handbook of Artificial Intelligence and Journalism Integrates theoretical foundations empirical studies and practical applications in a cohesive structure Offers insights into journalism practices across a wide range of geographical contexts and engages with approaches that transcends Western dominated paradigms incorporating perspectives from the Global South Employs interdisciplinary frameworks to enhance the understanding of AI driven journalism Examines the sociotechnical dynamics of AI including its potential benefits and challenges for journalism Presents forward looking reflections on the future of journalism research in the AI era The Handbook of Artificial Intelligence and Journalism is ideal for undergraduate graduate and doctoral students in journalism communication and media studies programs It also serves as a vital reference for researchers educators media professionals and policy advisors engaged in digital journalism journalism research media innovation and public communication

Ensuring a Better Future Dr. Kevin Colleary, 2022-07-26 A timely book that explores the critical need for social studies to be equally taught in American public schools Provides a call to action for all that understand the need to build an active and informed citizenry through more effective social studies education We have missed part of the equation for effective education STEM became STEAM but we forgot social studies and the importance of the skills and content it teaches Ensuring a Better Future Why Social Studies Matters explores the sacrifice of both many students inherent skills interests and an effectively informed and effective citizenry through prioritized Social Studies education in public schools

This book seeks to accelerate the pendulum swing away from strict STEAM education that the author and Jared feel is starting. It names and explores the issues of equitable funding and curriculum focus delinquency, the historical story about the swing away from social studies education and how to energize our country in support of Social Studies education.

AI, Agents and Automation for Remote Teams 2025 Jens Belner, 101-01-01

AI Agents and Automation for Remote Teams 2025 Supercharge Productivity Slash Meetings and Make AI Your Competitive Advantage The Future of Remote Work Is Here Are You Ready Remote work isn't a trend it's the new reality.
