*Man vs. machine: Experimental evidence on the quality and perceptions of AI-generated research content* Keenan, Michael, Koo, Jawoo, Mwangi, Christine, Karachiwalla, Naureen, Breisinger, Clemens, Kim, MinAh, 2025-02-24 Academic researchers want their research to be understood and used by non technical audiences but that requires communication that is more accessible in the form of non technical and shorter summaries The researcher must both signal the quality of the research and ensure that the content is salient by making it more readable AI tools can improve salience however they can also lead to ambiguity in the signal since true effort is then difficult to observe We implement an online factorial experiment providing non technical audiences with a blog on an academic paper and vary the actual author of the blog from the same paper human or ChatGPT and whether respondents are told the blog is written by a human or AI tool Even though AI generated blogs are objectively of higher quality they are rated lower but not if the author is disclosed as AI indicating that signaling is important and can be distorted by AI Use of the blog does not vary by experimental arm The findings suggest that provided disclosure statements are included researchers can potentially use AI to reduce effort costs without compromising signaling or salience Academic researchers want their research to be understood and used by non technical audiences but that requires communication that is more accessible in the form of non technical and shorter summaries The researcher must both signal the quality of the research and ensure that the content is salient by making it more readable AI tools can improve salience however they can also lead to ambiguity in the signal since true effort is then difficult to observe We implement an online factorial experiment providing non technical audiences with a blog on an academic paper and vary the actual author of the blog from the same paper human or ChatGPT and whether respondents are told the blog is written by a human or AI tool Even though AI generated blogs are objectively of higher quality they are rated lower but not if the author is disclosed as AI indicating that signaling is important and can be distorted by AI Use of the blog does not vary by experimental arm The findings suggest that provided disclosure statements are included researchers can potentially use AI to reduce effort costs without compromising signaling or salience *More Joel on Software* Avram Joel Spolsky, 2008-09-27 Joel Apress Blogs and Books I was learning the hard way about how to be a publisher and probably spending way too much time looking at web sites and programming than I should have in response to that Anyway one day I came across this web site called which was run by a guy with strong opinions and an unusual clever writing style along with a willingness to take on the conventional wisdom In particular he was writing this ongoing series about how bad most user interfaces were mostly because programmers by and large knew as Joel and I would say using the same Yiddish derived NYC vernacular that we both share bupkis about what users really want And I like many was hooked both by the series and the occasional random essay that Joel wrote And then I had this epiphany I m a publisher I like reading his stuff why not turn it into a book Read the complete Foreword Gary Cornell Cofounder Apress Since the release of the bestselling title Joel on Software in 2004 requests

for a sequel have been relentless So we went back to the famed Joel on Software com archives and pulled out a new batch of favorites many of which have been downloaded over one million times With Joel s newest book More Joel on Software you ll get an even better not to mention updated feast of Joel s opinions and impressions on software development software design running a software business and so much more This is a new selection of essays from the author s web site <http://www.joelonsoftware.com> Joel Spolsky started his weblog in March 2000 in order to offer his insights based on years of experience on how to improve the world of programming This weblog has become infamous among the programming world and is linked to more than 600 other web sites and translated into 30 languages Spolsky s extraordinary writing skills technical knowledge and caustic wit have made him a programming guru With the success of Joel on Software there has been a strong demand for additional gems and advice and this book is the answer to those requests Containing a collection of all new articles from the original More Joel on Software has even more of an edge than the original and the tips for running a business or managing people have far broader application than the software industry We feel it is safe to say that this is the most useful book you will buy this year

**33 Artists in 3 Acts** Sarah Thornton, 2014-10-27 This compelling narrative goes behind the scenes with the world s most important living artists to humanize and demystify contemporary art The best selling author of Seven Days in the Art World now tells the story of the artists themselves how they move through the world command credibility and create iconic works 33 Artists in 3 Acts offers unprecedented access to a dazzling range of artists from international superstars to unheralded art teachers Sarah Thornton s beautifully paced fly on the wall narratives include visits with Ai Weiwei before and after his imprisonment and Jeff Koons as he woos new customers in London Frankfurt and Abu Dhabi Thornton meets Yayoi Kusama in her studio around the corner from the Tokyo asylum that she calls home She snoops in Cindy Sherman s closet hears about Andrea Fraser s psychotherapist and spends quality time with Laurie Simmons Carroll Dunham and their daughters Lena and Grace Through these intimate scenes 33 Artists in 3 Acts explores what it means to be a real artist in the real world Divided into three cinematic acts politics kinship and craft it investigates artists psyches personas politics and social networks Witnessing their crises and triumphs Thornton turns a wry analytical eye on their different answers to the question What is an artist 33 Artists in 3 Acts reveals the habits and attributes of successful artists offering insight into the way these driven and inventive people play their game In a time when more and more artists oversee the production of their work rather than make it themselves Thornton shows how an artist s radical vision and personal confidence can create audiences for their work and examines the elevated role that artists occupy as essential figures in our culture

**James Baldwin and the American Schoolhouse** Carl A. Grant, 2021-04-28 This book written for teacher educators teachers and admirers of James Baldwin employs his essays and speeches to discuss how the effects of race and racism enter the souls of African American students and become attached and difficult to dislodge Yet his essays also provide educators and students with purpose meaning and suggestions for how to stand up against racism develop an authentic self

and fight oppression Whereas this book takes advantage of the full body of Baldwin's work fiction nonfiction interviews lectures speeches and letters its foundation is three speeches James Baldwin gave in the 1960s on the education of African American children and African American and European American race relations in the United States The purpose of education defying myths freedom willful ignorance and developing identity are discussed through a Baldwinian lens African American and European American teachers are encouraged to Go for Broke as this book explores the important role Baldwin's work can play in schools and universities

**Superintelligence** Nick Bostrom, 2014-07-02 The human brain has some capabilities that the brains of other animals lack It is to these distinctive capabilities that our species owes its dominant position Other animals have stronger muscles or sharper claws but we have cleverer brains If machine brains one day come to surpass human brains in general intelligence then this new superintelligence could become very powerful As the fate of the gorillas now depends more on us humans than on the gorillas themselves so the fate of our species then would come to depend on the actions of the machine superintelligence But we have one advantage we get to make the first move Will it be possible to construct a seed AI or otherwise to engineer initial conditions so as to make an intelligence explosion survivable How could one achieve a controlled detonation To get closer to an answer to this question we must make our way through a fascinating landscape of topics and considerations Read the book and learn about oracles genies singletons about boxing methods tripwires and mind crime about humanity's cosmic endowment and differential technological development indirect normativity instrumental convergence whole brain emulation and technology couplings Malthusian economics and dystopian evolution artificial intelligence and biological cognitive enhancement and collective intelligence This profoundly ambitious and original book picks its way carefully through a vast tract of forbiddingly difficult intellectual terrain Yet the writing is so lucid that it somehow makes it all seem easy After an utterly engrossing journey that takes us to the frontiers of thinking

about the human condition and the future of intelligent life we find in Nick Bostrom's work nothing less than a reconceptualization of the essential task of our time

Comics and Catharsis Jordan Tronsgard, 2025-08-21 Contributions by Kelly Baron Angie Chau Jennifer Nagtegaal Lee Okan Diana Pifano Russell Samolsky Kay Sohini Jordan Tronsgard Anastasia Ulanowicz and Aanchal Vij Comics and Catharsis Exploring Graphic Narratives of Trauma and Healing explores the idea that trauma and healing hold an imbalance in many forms of literature especially in the world of comics Whether it be war based national physical or sexual trauma this volume looks at a wide variety of trauma and the psychological pain and devastation that arise during and crucially for the question of trauma narratives following the events as the psychological and often physical wounds are processed Essayists in the collection engage with questions of how comics process trauma through depictions and receptions Viewing trauma through the lens of comics such as *Maus* *Persepolis* and *Fun Home* as well as works by comics writers who are little known or unknown outside their communities contributors analyze how trauma is used in artistic style writing and overall storytelling Together the essays in *Comics and Catharsis* show how people who have suffered trauma often flock to these works to find a way to acknowledge and process their own suffering
