Wroblewski,2023-07-10 To grow your ecommerce business you need to gain more clients And to achieve it you have to provide high quality customer experience Sounds logical But the more visitors on your website the more questions your support agents have to handle And here is the challenge you need to face to successfully grow your store How to serve more clients answer more questions and maintain the highquality of support at the same time There are two ways The first is to constantly hire new support agents It probably will work but the cost you'll have to take for constantly recruiting and training new employees will be huge The second way is connected to technology that took the ecommerce industry and not only this one by a storm and will stay with us for a long time If not forever The AI AI Agents vs. AI Chatbots: A Strategic Guide for B2B Customer Service Branislav Bozanic,2025-04-01 In 2021 Uber was expanding at a staggering rate but growth came at a cost After pandemic related restrictions eased the multinational American transportation company faced severe driver shortages and regulatory hurdles that slowed the hiring of new drivers Wait times surged prices fluctuated and customer frustration grew One of the biggest bottlenecks was due to customer support The high volume of tickets coming in across multiple channels required manual processing And therein lay their problem Even Uber couldn't keep up with all the

customer support demands This resulted in slow response times inconsistent resolutions and high operational costs However their team didn't panic There was an obvious solution AI driven technologies More precisely an AI powered robotic process automation RPA system Uber quickly implemented RPA to categorize tickets and handle repetitive and time consuming customer support tasks The results Processing time for common issues dropped from days to minutes Customer satisfaction skyrocketed with faster response times Cost savings were massive with the company revenue growing from 17 to 32 billion US dollars the following year 1 Thanks to chatbots and now AI agents automating customer service is getting easier cheaper and more scalable These digital assistants can answer customer questions and automate simple tasks based on a specific set of data But only one of them can also make dynamic decisions plan actions and even learn from experiences offering unparalleled service Curious to know which one is the all around solution that is more suitable for the B2B ecosystem This ebook aims to demystify the differences between AI Agents and AI Chatbots provide their respective benefits and help businesses make the right choice according to their unique customer service requirements

Improve customer experience with chatbots Beata Stefanowicz, 2023-02-13 We have come a long way in the past 70 years since chatting to a computer was first mentioned A chatbot is a computer program that communicates with human users over text or through a speech to text system Businesses can use chatbots to communicate with their customers and recreate the in store shopping experience online Ecommerce companies can do this by Welcoming visitors to their online store Offering support within arm's reach Showing personalized deals Using proactive sales techniques Helping customers find the right products Upselling items and services Handling complaints on auto pilot Offering membership cards Collecting feedback from shoppers Offering multilingual support Many ecommerce brands are already taking advantage of chatbots to get ahead of their competitors Why not try them for yourself and see what this technology can do for your business

Building AI-Powered Chatbots Zyron Vexaris,2025-10-07

Let's be honest most people's first experience with a chatbot was either wildly unhelpful or just a little too excited to tell you store hours. But here's the good news chatbots have grown up and so can you. Whether you're an aspiring developer, digital product designer, startup founder, or just a curious tech adventurer tired of talking to bots that sound like malfunctioning toasters, this book is your blueprint to building the kind of AI-powered chatbot people actually want to talk to. **Building AI-Powered Chatbots** is your no-fluff, real-talk practical guide to creating smart conversational and actually useful bots. From rule-based baby bots to NLP-driven digital assistants that remember your last three pizza orders, we'll walk through the whole journey with laughs, stories, and a dash of code. I'll show you how to choose the right tools because yes, there is such a thing as too many APIs, how to make your chatbot sound less like a robot and more like your witty best friend, and how to avoid common design fails like conversation loops that make users scream into the void. You'll get hands-on with Designing flows and crafting prompts that don't suck. Building with tools like GPT, Dialogflow, LangChain, and no-code platforms. Creating bots that can talk, listen, translate, and even show pictures. Making your chatbot feel human with tone, memory, and personality. Deploying like a pro with cloud tools, analytics, and continuous updates. Keeping it ethical and inclusive so your bot doesn't become that bot. This isn't just another technical manual; it's part of the **AI Prompting Secrets** book series designed to unlock creativity, automation, and efficiency through the magic of prompt engineering and smart AI integration. And if this book leaves you hungry for more, you're in luck: check out other titles like *Introduction to Prompt Engineering*, *Advanced Prompting Techniques*, *Prompt Engineering for Business Marketing*, *Coding with Prompts*, and *Ethical and Responsible Prompt Engineering* because someone's gotta keep the bots from going rogue, right? Whether you're launching your first chatbot MVP, improving a virtual assistant, or just figuring out what few-shot prompting even means, this guide will give you the tools and the confidence to create AI interactions that feel effortless, helpful, and yes, even a little magical. So dive in, experiment boldly, and remember: the future is conversational, and you're already ahead of the curve.
