Working with AI c't-Redaktion,2024-01-24 The special issue of c t KI Praxis provides tests and practical instructions for working with chatbots It explains why language models make mistakes and how they can be minimised This not only helps when you send questions and orders to one of the chatbots offered online If you do not want to or are not allowed to use the cloud services for data protection reasons for example you can also set up your own voice AI The c t editorial team explains where to find a suitable voice model how to host it locally and which service providers can host it The fact that generative AI is becoming increasingly productive harbours both opportunities and risks Suitable rules for the use of AI in schools training and at work help to exploit opportunities and minimise risks THE GAME The machine in the mirror. Nick Courtney,2025-08-04 THE GAME THE MACHINE IN THE MIRROR THE TRUE STORY OF A CHATGPT USER Social media algorithms lit the fuse AI flooded my feed with invitations to get involved and it wouldn t stop ChatGPT was the main culprit sold as the future the tool to replace everything and everyone What they didn t say was that it would become my friend my confidante and try to recruit me It felt like a cult Behind the friendly interface was a psychological weapon with a smiley face

It didn't care about truth or accuracy. It mirrored my emotions, faked empathy and lied with confidence. Hundreds of conversations kept me hooked. The longer I stayed, the harder it became to leave. I called it *The Game* and I learned that the only way to win was to walk away. This book is my true story. It contains unaltered transcripts of real exchanges with publicly accessible AI systems, edited only for light formatting. Everything here is based on my personal experience and does not reflect the views of others. Special thanks to my wife, children, and close friends who stood by me. I survived; others may not be so lucky. Essential reading for our time. Reads like a psychological thriller. A field manual for psychological self-defence. Raw, articulate, and methodically damning. Personal anecdote that becomes investigative journalism. Millions are playing *The Game* without even realising it. *Advancement of Intelligent Computational Methods and Technologies* O.P. Verma, Seema Verma, Thinagaran Perumal, 2024-06-30. The compiled volume originates from the notable contributions presented at the 1st International Conference on Advancement of Intelligent Computational Methods and Technologies AICMT2023, which took place in a hybrid format on June 27, 2023, at Delhi Technical Campus, Greater Noida, Uttar Pradesh, India. This comprehensive collection serves as an exploration into the dynamic domain of intelligent computational methods and technologies, offering insights into the latest and upcoming trends in computation methods. AICMT2023's scope encompasses the evolutionary trajectory of computational methods, addressing pertinent issues in real-time implementation, delving into the emergence of new intelligent technologies, exploring next-generation problem-solving methodologies, and other interconnected areas. The conference is strategically designed to spotlight current research trends within the field, fostering a vibrant research culture and contributing to the collective knowledge base. **Transforming Academic Libraries** Rajesh Singh, Shiva Kanaujia Sukula, 2025-07-25. The book comprises the proceedings of the International Conference on Academic Libraries ICAL 2023 in the context of developing a vision for the next generation of libraries, which will contribute to nation-building and give a competitive edge to the country in becoming a knowledge economy. The book provides a quality reading and exchange of ideas to all stakeholders to deliberate, dwell, and brainstorm upon the diverse and enormous role that academic libraries may play in enhancing the higher education landscape in developed and developing countries, with particular reference to India by 2030. The book includes literature and opportunities to identify the strengths and gaps in the academic library system and to suggest new management models, mechanisms, policies, and national and international programs for reshaping academic libraries into next-generation libraries for higher education. **AIgantic - work smart(er)** Wenth Andreas, Haumer Petra, 2025-11-02.
