[Money with AI: How ChatGPT Can Help You](#) Jay Nans, 2025-11-14. The ebook *Money with AI: How ChatGPT Can Help You* is a practical, beginner-friendly guide for honestly earning income using the free version of ChatGPT without requiring technical skills. Core Philosophy and Realism: The book establishes that ChatGPT functions as a time-saving assistant and production partner, not an automatic money-making machine requiring consistent human effort and oversight. It stresses avoiding get-rich-quick scams and setting realistic expectations; initial earnings are typically small and emerge after a few weeks to a few months of consistent work. Getting Started: Initial chapters focus on using the free version of the tool, explaining what ChatGPT can and cannot do, and detailing the creation of effective prompts. Key rules for successful prompts include being clear about the task, providing context, giving format instructions, and iteratively checking and improving the AI's output. Income Streams and Workflows: The majority of the guide outlines multiple low-barrier income streams, providing step-by-step workflows. Tools primarily include ChatGPT, Canva, Google Docs, and example prompts for each. Freelancing: Writing services on platforms like Fiverr and Upwork, such as writing blog posts, crafting product descriptions, or producing outlines and content for ebooks. Digital Products: Passive income through creating and selling simple digital goods like low-content books, journals, planners, templates, resumes, and mini-guides, using AI to speed up the creation process. Specialized Services: Providing research and report summarization, generating social media content, captions, video scripts, creating customer support materials, FAQs, email templates, or packaging personal expertise into online micro-courses. The 30-Day Plan: The book culminates in a structured 30-Day AI Income Plan. This plan guides the beginner through four phases: Week 1: Learn. Master the basics of ChatGPT and supporting tools. Week 2: Create Samples. Build a small portfolio of work samples and micro-products. Week 3: Publish. Create professional profiles on freelance or digital product platforms like Fiverr or Etsy. Week 4: Start Earning. Actively apply for jobs and deliver first paid work. Long-term advice emphasizes consistency, building business systems, and slowly scaling through pricing and product bundling.
