AI: Your Teacher's Assistant for Planning, Grading & Differentiation Emily Karst, 2025-06-15 Teaching is a profession of passion, but it also demands an extraordinary amount of time and energy. The time it takes to plan lessons, grade assignments, and tests and differentiate instruction all add up, and teachers often work far beyond contracted hours just to keep up. AI will never be a replacement for outstanding teaching. Still, it can serve as a handy assistant to help you streamline tasks, increase efficiency, and create more space for what matters most: engaging with students and fostering meaningful learning experiences. This guide explores how AI can support teachers in lesson and unit planning, making substitutes, plans, grading, and differentiation. You will learn how AI can help lighten your workload while maintaining high-quality instruction. If you have questions about the basics, like what AI is, how it works, or what to do about protecting student data, please refer to the first guide in this three-part series of laminated guides on AI, entitled *AI in Education 101: A Teacher's Guide*. If you understand the basics and are ready to learn more about the practicalities of implementing AI as a teacher, this is the guide for you.

AI Hacks for Educators Kevin F. Yee, Laurie Uttich, Eric Main, Liz Giltner, 2024 AI tools have powered our phones, our cars, our news, and countless other aspects of our lives for years now. Still, the emergence of Large Language Models (LLMs) feels to many of us in education as the most dramatic disruption we've experienced yet. And yet, with these challenges comes great opportunities to strengthen our teaching and simplify the many other tasks we're responsible for in our professional lives as faculty members. In this book, four educators with decades of teaching experience provide concrete, applicable ideas for utilizing LLMs and other AI tools to add creativity to our courses and lessen the toll of administrative tasks. Whether you teach literature or

physics or anything in between this collection of tips and assignments will provide you with practical ideas you can use today

Back cover Timesaving AI Tools for Teachers Guillermo Antón-Pardo, 2023-09-28 ARTIFICIAL INTELLIGENCE is already here and is set to revolutionize education and society Start learning to use AI tools that will help you save time in your teaching tasks while you join the forefront of the changes brought by this technology and in the process improve the way you teach The first goal of this guide like most of my books is to showcase AI tools and applications that allow teachers to complete tasks in less time Therefore it does not seek to innovate education through the use of AI nor explain how to use it in class with students However many of the tools mentioned can be adapted for classroom use with students and undoubtedly the time saved by using AI will bring us greater personal well being which will positively influence our teaching The second goal of this book is to serve as a guide that organizes the immense amount of AI tools that have emerged in a short time and guide the reader in their exploration It does not mean to be an in depth tutorial on any of the tools which would be unmanageable Instead it aims to provide an overview on their uses and applications The book explores and evaluates many of the AI tools applicable to teaching work grouped into 25 categories including **Next-Gen Teaching** Chris Lafata, 2024-08-07 Does it seem like seemingly out of nowhere AI is suddenly everywhere As educators we face issues related to students using AI for cheating as well as the ethical implications of AI assisted grading There s a new phrase in the vernacular that goes something like this AI isn t going to replace people but people who use AI are going to replace people who don t Artificial Intelligence is not going to replace teachers but it is going to transform how they operate in and out of the classroom This book equips educators with practical applications and ethical strategies to enhance their work Topics covered include customized feedback lesson plan development crafting effective prompts and empowering students to use AI for good and not evil AI is a tool It can t replace the work we do but it can assist us in making our teaching practices more efficient and more interesting for students
