Coping With Sexual Abuse:

Sexual Violence Kathleen Monahan, 2024-01-31 Sexual violence is a multifaceted crime and a global health problem. It is a crime that can happen to anyone including young and old male and female rich and poor. Sexual violence persists due to several variables including abuse history and a society's tolerance of the crime. Additionally, belief systems, cultural norms, and legal systems create environments that allow abusers to escape detection. This book addresses sexual violence myths, belief systems, and the media's role in perpetuating sexual violence. It also examines the role of social media in facilitating sexual crimes, particularly sex trafficking. Finally, this book examines the work of community stakeholders in addressing and treating individuals who have been sexually victimized and the coping mechanisms of sexually traumatized adult women. **Child**

Sexual Abuse Esther Deblinger, Anthony P. Mannarino, Judith A. Cohen, Melissa K. Runyon, Anne Hope Heflin, 2015. Based on over 25 years of research supported by grants from the National Institute of Mental Health (NIMH), the National Center on Child Abuse and Neglect (NCCAN), and other funding sources, *Child Sexual Abuse* describes a premier empirically supported treatment approach for children, adolescents, and non-offending parents/caregivers impacted by child sexual abuse.

Restorative Responses to Sexual Violence Estelle Zinsstag, Marie Keenan, 2017-02-17. Sexual violence in all its forms is a crime for which anecdotal accounts and scholarly reports suggest victims in their great majority do not receive adequate justice or redress. The theory and practice of restorative justice is rapidly developing and offers some well-argued new avenues for dealing with crime in general. It has the potential to be extended to cases of sexual violence, and a number of small-scale programmes are already underway across the world. *Restorative Responses to Sexual Violence* examines this innovative justice paradigm in more depth in the particular context of sexual trauma and violence in order to establish the empirical realities of restorative justice approaches in cases of sexual violence and considers how such approaches could be developed adequately in the future. This book is divided into two parts, each representing a key area of research and practice: theoretical and conceptual frameworks, and justice and therapeutic perspectives. This international collection brings together leading expert scholars and practitioners to offer both theoretical and practical perspectives on restorative justice and sexual violence. This book will be of interest to researchers in the field of law, criminology, psychology, social science, social work, and psychotherapy, as well as practitioners in the fields of criminal justice, restorative justice, and sex offender and victim trauma therapies.
