Corporate Classrooms Nell P. Eurich,Carnegie Foundation for the Advancement of Teaching,1988 *Teaching and Learning at Business Schools* Pär Mårtensson,Magnus Bild,2016-04-01 Business schools are facing ever increasing internationalization students are far less homogenous than before faculty members come from different countries and teaching is carried out in second or even third languages As a result business schools and their teachers wrestle with new challenges as these changes accelerate Teaching and Learning at Business Schools brings together contributions from business school managers and educators involved in the International Teachers Programme a faculty development programme started by Harvard Business School more than 30 years ago and now run by a consortium of the London Business School Manchester Business School Kellogg Stern School of Business INSEAD HEC Paris IAE Aix en Provence IMD SDA Bocconi Milan and Stockholm School of Economics The book tackles themes both within the classroom teaching across different contexts and cultures and outside the classroom leading and developing business schools designing and running programmes developing faculty members The authors provide direction ideas and techniques for transforming business education that are accessible to everyone **Resources in education** ,1986-05 Leadership in Organizations John Storey,2016-06-10 This third edition of Leadership in Organizations Current Issues and Key Trends builds on the success of the previous versions with new and updated chapters providing fresh and lively insights into a subject that can often be tricky to pin down Leadership in Organizations carefully balances theory and practice including critical perspectives to examine fundamental questions about the meaning of leadership its use and its development Readers will benefit from the text s rich use of cases and examples of real life tensions challenges and successful outcomes of leadership practice The book also sets itself apart through its distinctive focus on leadership within the wider contexts of politics economics and public policy as well as organizational behaviour and management New elements for this edition include The moral pitfalls of leadership Leadership roles under crisis conditions Fresh analysis of the impact of leadership on performance outcomes This is the ideal text for advanced students of leadership studies as well as practitioners looking to deepen their understanding of the leadership process and to enhance their leadership skills The U.S. Technology Skills Gap Gary J. Beach,2013-07-10 Is a widening skills gap in science and math education threatening America s future That is the seminal question addressed in The U S Technology Skills Gap a comprehensive 104 year review of math and science education in America Some claim this skills gap is equivalent to a permanent national recession while others cite how the gap threatens America s future economic workforce employability and national security This much is sure America s math and science skills gap is or should be an

issue of concern for every business and information technology executive in the United States and The U S Technology Skills Gap is the how to get involved guidebook for those executives laying out in a compelling chronologic format The history of the science and math skills gap in America Explanation of why decades of astute warnings were ignored Inspiring examples of private company efforts to supplement public education A pragmatic 10 step action plan designed to solve the problem And a tantalizing theory of an obscure Japanese physicist that suggests America s days as the global scientific leader are numbered Engaging and indispensable The U S Technology Skills Gap is essential reading for those eager to see America remain a relevant global power in innovation and invention in the years ahead **Management** Arthur G. Bedeian,1993

Corporate E-Learning Luther Tai,2007-09-27 Corporate e learning has become increasingly important in the contemporary universal access business world and can provide strategic and competitive advantages to corporations as a way to accelerate training and reduce the high costs of face to face learning programs However most of the books that are written about e learning do not describe in detail how corporate e learning is actually implemented within a specific company Corporate E Learning fills that gap by describing in depth how e learning programs are developed and instituted and how their effectiveness is measured from the perspective of practicing e learning professionals at IBM an early and liberal user of e learning technologies to train their global workforce *The Blackboard and the Bottom Line* Larry Cuban,2007-09-15 Ford Motor Company would not have survived the competition had it not been for an emphasis on results We must view education the same way the U S Secretary of Education declared in 2003 But is he right In this provocative new book Larry Cuban takes aim at the alluring cliché that schools should be more businesslike and shows that in its long history in business minded America no one has shown that a business model can be successfully applied to education In this straight talking book one of the most distinguished scholars in education charts the Gilded Age beginnings of the influential view that American schools should be organized to meet the needs of American businesses and run according to principles of cost efficiency bottom line thinking and customer satisfaction Not only are schools by their nature not businesslike Cuban argues but the attempt to run them along business lines leads to dangerous over standardization of tests and of goals for our children Why should we think that there is such a thing as one best school Is college for all achievable or even desirable Even if it were possible do we really want schools to operate as bootcamps for a workforce Cuban suggests that the best business inspired improvement for American education would be more consistent and sustained on the job worker training tailored for the job to be done and business leaders encouragement and adoption of an ethic of civic engagement and public service **Annual CHRIE**
