Renewing Theology J. Matthew Ashley, 2022-07-15 This comprehensive study investigates the role that Ignatian spirituality has played in the renewal of academic theology using three prominent Jesuits as case studies Over several centuries spirituality has come to define a field of concerns and themes increasingly treated separately from those of academic theology as if the latter had little relation to the former This raises the question for us today How is spirituality related to the practice of theology In *Renewing Theology* J. Matthew Ashley provides an answer by turning to Ignatian spirituality and three prominent twentieth century theologians who embraced its spiritual resources Karl Rahner Ignacio Ellacur a and Jorge Mario Bergoglio that is Pope Francis Ashley begins his investigation by considering the historical origins of the widening separation between spirituality and academic theology in the Christian West He provides an initial overview of Ignatian spirituality focusing on the openness and multidimensionality of Ignatius of Loyola's Spiritual Exercises presented here as a text in which the conditions of modernity that defined its author's world are present at least incipiently Ashley then offers three case studies in order to show how each Jesuit Rahner Ellacur a and Pope Francis responded to the challenges of modernity in a way that is uniquely nourished and illuminated by themes constitutive of Ignatian spirituality Their theologies Ashley suggests evince a particular clarity and force when the Ignatian spirituality that animates them is foregrounded Providing new and productive avenues into understanding the theologies of these three individuals this sophisticated and enlightening book will interest scholars and students of systematic theology as well as readers who are interested in the future of theology and spirituality in a fragmented age

Challenges in Implementing Corporate Governance John Zinkin, 2011-11-08 John Zinkin's new book on Challenges in Implementing Corporate Governance is a welcome addition for board members and senior management on how to improve corporate governance in the post crisis period. John correctly identifies that most boards on underperforming companies have three elements of failure: a lack of proper understanding of the business and its strategy; a total lack of appreciation of both the strategic and systemic risks created by new product markets; and a total failure by boards to ensure that the incentive structures for top management reflect long term needs rather than short term profits, thereby putting the company's future at risk. John has written a useful and practical handbook that is a must read for all board members on how to improve corporate governance.

Datuk Seri Panglima Andrew Sheng, Chief Adviser, China Banking Regulatory Commission and the Boards of the Qatar Financial Centre Regulatory Authority, Sime Darby Berhad and Khazanah Nasional. This timely book will interest those wanting to improve corporate governance and risk management. It should also appeal to anyone curious about what caused banks to fail in a number of markets in recent times and the values which led to this failure. In considering principles which are essential to good governance, ACCA recognizes that corporate governance evolves and improves over time. We accept that organizations in different sectors and across the world operate in diverse environments in terms of culture, regulation, legislation and enforcement. What is appropriate in terms of governance for one type of organization will not be appropriate to all organizations. John Zinkin's book seeks to address this challenge, analyzing the essential cultural and behavioral issues which sit at the heart of the challenges.

Paul Moxey, Head of Risk Management and Corporate Governance, Association of Chartered Certified Accountants. A scholarly combination of practical guidelines and strategic vision.

Lady Sylvia Jay, CBE, Vice Chairman, L'Oreal UK, Independent Director, Alcatel Lucent, Compagnie de Saint Gobain, Lazard Limited and Carrefour. This is a highly topical and timely publication. Globally, the crisis that has gripped the financial services sector following the failure of well known global banks in recent years has focused attention on corporate governance. To restore confidence in the financial services sector is a long term goal and effective corporate governance, together with the closely associated topic of risk management, has gripped not only governments and banks but the public too. In this book, John Zinkin clearly asserts that financial institutions need to exert their responsibilities beyond their shareholders and far more into the wider group of stakeholders including employees and wider society. In considering issues globally, John provides a book that is not only thought provoking but pragmatic and useful at a time when stakeholders in our banks need to see real change in transparent, practical ways from those charged with governing our banks.

The Digital City Germaine R. Halegoua,2020-01-21 Shows how digital media connects people to their lived environments Every day millions of people turn to small handheld screens to search for their destinations and to seek recommendations for places to visit They may share texts or images of themselves and these places en route or after their journey is complete We don't consciously reflect on these activities and probably don't associate these practices with constructing a sense of place Critics have argued that digital media alienates users from space and place but this book argues that the exact opposite is true that we habitually use digital technologies to re-embed ourselves within urban environments The Digital City advocates for the need to rethink our everyday interactions with digital infrastructures navigation technologies and social media as we move through the world Drawing on five case studies from global and mid-sized cities to illustrate the concept of re-placing Germaine R Halegoua shows how different populations employ urban broadband networks social and locative media platforms digital navigation smart cities and creative placemaking initiatives to turn urban spaces into places with deep meanings and emotional attachments Through timely narratives of everyday urban life Halegoua argues that people use digital media to create a unique sense of place within rapidly changing urban environments and that a sense of place is integral to understanding contemporary relationships with digital media **Canadian Business** ,1962 *Modern Business* Joseph French Johnson,1917
