The Correlation of Spiritual Forces Franz Hartmann, 2014-03-30 This Is A New Release Of The Original 1897 Edition Foreign Missions Conference of North America Foreign Missions Conference of North America, 1905 Directory of boards and societies is included in the 18th 25th reports in the 25th 1918 the dates of founding of the boards and societies are given Continued in earlier title Conference of the Foreign Missions Boards in the United States and Canada **The Emergence of Jewish Scholarship in America** Shuly Rubin Schwartz, 1991-12-31 The Jewish Encyclopedia was the first comprehensive collection of all the available material pertaining to the Jews their history literature philosophy ritual sociology and biography Published by Funk Wagnalls from 1901 to 1906 its successful completion was due to the pluck and determination of its managing editor Isidore Singer and to the dedication of its other editors and collaborators many of whom were world renowned scholars Today the JE has been largely superseded as a reference work but as a repository of information about Jews and Judaism in the late nineteenth century it remains a gold mine Part One of Schwartzs book recounts the lively story of the JEs publication the nascence of the idea the negotiations with Funk Wagnalls the assembling of the board of editors and the tensions rivalries and financial problems that constantly plagued the project She introduces those who played leading roles in the numerous reviews and announcements that accompanied its publication and evaluates its significance as the premier cultural event in American Jewish life at the dawn of the twentieth century In Part Two an analysis of the JEs contents reveals both the nature and extent of Jewish scholarship at the time and the goals and concerns of those who produced it As Schwartz demonstrates the JE marshaled its facts to combat both racial anti Semitic arguments and Christian polemics The work summarized preserved and expanded upon the results of Wissenschaft des Judentums It provided the beginnings of a Jewish cultural response to the intellectual challenges of Darwinism and higher biblical criticism And it presented the unique Reform and modern traditionalist perspectives on Jewish practice and belief Throughout this fascinating study Schwartz explores the complex and frequently strong relationships among Jewish leaders Most importantly she demonstrates that through its content as well as through the very fact of its publication in the United States and in English the Jewish Encyclopedia signified the transfer of the center language and leadership of Jewish scholarship from the Old World to the New thus becoming a primary catalyst for the emergence of Jewish scholarship in America **Hartmann's Who's who in Occult, Psychic and Spiritual Realms...in the United States and Foreign Countries** ,1927 **The Making of American Liberal Theology** Gary J. Dorrien, 2001-01-01 This text identifies the indigenous roots of American liberal theology and uncovers a wider longer running tradition than has been thought Taking a narrative approach the text provides a biographical reading of important religious thinkers of the time **Popularizing Science and Technology in the European Periphery, 1800-2000** Faidra Papanelopoulou, 2016-03-23 The vast majority of European countries have never had a Newton Pasteur or Einstein Therefore a historical analysis of their scientific culture must be more than the

search for great luminaries Studies of the ways science and technology were communicated to the public in countries of the European periphery can provide a valuable insight into the mechanisms of the appropriation of scientific ideas and technological practices across the continent The contributors to this volume each take as their focus the popularization of science in countries on the margins of Europe who in the nineteenth and twentieth centuries may be perceived to have had a weak scientific culture A variety of scientific genres and forums for presenting science in the public sphere are analysed including botany and women teaching and popularizing physics and thermodynamics scientific theatres national and international exhibitions botanical and zoological gardens popular encyclopaedias popular medicine and astronomy and genetics in the press Each topic is situated firmly in its historical and geographical context with local studies of developments in Spain Portugal Italy Hungary Denmark Belgium and Sweden Popularizing Science and Technology in the European Periphery provides us with a fascinating insight into the history of science in the public sphere and will contribute to a better understanding of the circulation of scientific knowledge *The United Presbyterian*, 1903 *The Western Construction of Religion* Daniel Dubuisson, 2003-06-18 The Western Construction of Religion not only provides a critical assessment of the whole history of religion as it is understood in the West but offers better ways of constructing the study of this central part of human experience *The American Journal of Psychology* Granville Stanley Hall, Edward Bradford Titchener, Karl M.

The Bibliography of Progressive Literature New Epoch Publishing Company, 1899 *The Post-Darwinian Controversies* James R. Moore, 1981-10-30 The Post Darwinian Controversies offers an original interpretation of Protestant responses to Darwin after 1870 viewing them in a transatlantic perspective and as a constitutive part of the history of post Darwinian evolutionary thought The impact of evolutionary theory on the religious consciousness of the nineteenth century has commonly been seen in terms of a conflict or warfare between science and theology Dr Moore's account begins by discussing the polemical origins and baneful effects of the military metaphor and this leads to a revised view of the controversies based on an analysis of the underlying intellectual struggle to come to terms with Darwin The middle section of the book distinguishes the Darwinism of Darwin himself amid the main currents of post Darwinian evolutionary thought and is followed by chapters which examine the responses to Darwin of twenty eight Christian controversialists tracing the philosophical and theological lineage of their views The paradox that emerges that Darwin's theory was accepted in substance only by those whose theology was distinctly orthodox theology and of other evolutionary theories with liberal and romantic theological speculation **The Encyclopedia Americana** Frederick Converse Beach, George Edwin Rines, 1904
