In this book, you'll explore 10 ways technology could alter our way of life. The challenge for you is to decide which changes you want for yourself and the world. In the future, will we teleport from place to place, keep dinosaurs as pets, or 3D print our dinner? Will we live on Mars or upload our brains to computers? Could we solve climate change by making all our energy from mini stars we build here on earth? This fascinating and thought provoking book from science writer Kathryn Hulick explores the possible futures humanity will face and how we will live as the world around us changes beyond our recognition. From genetic engineering and building floating colonies in space to developing telepathic technology and bionic body alterations, this engagingly illustrated book looks into the possible future technologies which will shape how we live and how we adapt to the challenges of the future. In this book, you'll meet the scientists working to bring science fiction to life and learn how soon we might have amazing new technology. You'll also delve deep into questions about right and wrong. Just because we can do something doesn't mean we should. How can we build the best possible future for everyone on Earth? *Writing and Editing for Digital Media* Brian Carroll,2025-12-12 An essential guide to writing and
