*Rural poverty in the Caribbean – Assets, social exclusion and agricultural livelihoods* Bailey, C.; Lashley, J.; Lazarus, L.; Marshall, D.; De la O Campos, A.P.,2024-12-03 Environmental shocks and stresses directly affect livelihoods in rural communities reliant on agriculture and fisheries making the income poor and those facing inequality especially vulnerable The complex relationships between the environment climate change and agriculture can lead to food insecurity poverty and inequality underscoring the need for better informed policies and effective programmes In the Caribbean poverty is often hidden particularly in middle to high income countries

where inequalities and deprivations hinder efforts to tackle climate change resource degradation and access to sustainable food. However, there is insufficient data for poverty analysis in the agricultural and environmental sectors especially for marginalized populations. This report examines the links between rural inequality, food security, agriculture and the environment in Barbados and Grenada. It highlights the importance of physical, financial, human and social assets for sustainable livelihoods. Conducted during the COVID 19 pandemic, the study uses in-depth interviews to offer policy recommendations aimed at improving access to assets and enhancing the resilience of farmers and fisherfolk supporting social mobility and protection against future crises.

These issues amongst others are also explored in a number of case studies taken from Asia, Africa and Latin America.

**Coping with Controversy** Gareth Jones, 1996 *The Money Problems of the Poor* Pauline Ashley, 1983 **Holiday Hunger in the UK** Michael A. Long, Margaret Anne Defeyter, Paul B. Stretesky, 2021-08-03. This timely and much needed book focuses on the phenomenon often referred to as holiday hunger in the United Kingdom. The book begins by outlining the history and scope of holiday hunger, the condition that occurs when a child's household is or will become food insecure during the summer holidays. The decline of the UK welfare state and the rise of neoliberalism have created a situation where up to three million children in the UK face food insecurity during the summer months when there are extra financial pressures on the working poor and when free school meals are not available. This book details the level of childhood and household food insecurity in the UK and describes one of the main responses to holiday hunger: holiday clubs. These clubs are locally organised and funded and provide a place for children to go to eat nutritious meals for free during the school holidays. Highlighting the benefits of holiday clubs that often extend beyond food provision, this book also discusses the challenges that they face now and in the future. The book concludes with recommendations for food insecurity policy and the role of government in fighting holiday hunger. This book will be of great interest to students and scholars of food and nutrition security, social policy and public health.
