

# COPING WITH ARTHRITIS

{ By 2040, it is estimated that almost 80 million Americans will be diagnosed with arthritis. If you already have been, follow these tips to manage pain. }

## See Your Doctor

Early arthritis diagnosis is the key to the most effective treatment. Utilize followup visits to address any concerns or changes in your body's behavior.

## Stay Active & Watch Your Weight

Keeping yourself at an average weight reduces pressure on your joints. Speak to your doctor to decide which exercises are right for you.

## Educate Yourself

Self-education, with the assistance of your doctor, will help you feel confident in your treatment strategies and choices.

## Take Your Medications

Keep up with any medication administered or recommended by your doctor, so you can effectively manage side effects and quality of life.

## Stay Positive

Arthritis limits its victims from participating in activities that were once enjoyable. Ask your doctor about adapting your lifestyle to keep active in a way that eases your pain.
