Casteline provides a unique pairing of literary styles in order to accomplish this Part true story and part how to advice this book offers wisdom on dealing with the loss of a cat the loss of a dog or the passing of any other type of pet Primarily a cat owner these days the author includes warm and genuine guidance on the various challenges one might deal with when mourning their pet backed by a detailed story of loss grief and how to find your way back to happiness all from someone who s faced and overcome these same challenges himself Notable parts of the book include an intimate look into the sadness and struggles the author faced as both a child and as an adult when a pet was lost the author s personal method for overcoming the grief that inevitably followed each time a pet passed away a full account of all the types of pets the owner has cared for over the course of his life straightforward and honest detail regarding what it means to grieve the loss of a pet and learn to love a new one one final easy to follow special lesson that will tie all of the ideas together and demonstrate how simple learning to love a new pet can really be From the author s introduction I made the decision to write this book after seeing that the things I ve learned were truly helping friends of mine who recently lost a pet themselves It is through their encouragement that I sat down in front of my computer and put into words some of the saddest and happiest experiences I ve ever gone through A thing I ve noticed about most how to books on coping is that they always seem to be somewhat sterile and detached from the emotions of the issue at hand But when it comes to losing a pet there s no way around it The emotions are raw They re real And they matter in a way that words can never convey So I decided that rather than writing a clinical book on the stages of mourning or a breakdown of human coping skills and psychology a better way of delivering my message would be to offer the valuable lessons I ve learned and include them WITH my story of the wonderful pets I have lost and how I actually handled their passing In other words before offering any real advice it would be my obligation to tell you what I ve been through so that you can apply my experiences and find genuine comfort and relief in your own life Ultimately like the title says this book has been written to offer a guiding light to you one that when followed is designed to lead you through the mourning process in as effective a way as I have ever experienced myself May it bring you the same benefit
