## **Coping With Rejection:**

*Coping with Rejection* Julia Hislop, 1991-01-01 Offers practical methods for adolescents in dealing with the emotional issues that surround rejection

**Don't Take It Personally** Elayne Savage, 2016-04-19 Who hasn't felt the sting of rejection? It doesn't take much for your feelings to get hurt: a look or a tone of voice or certain words can set you ruminating for hours on what that person meant. An unreturned phone call or a disappointing setback can really throw you off your center. It's all too easy to take disappointment and rejection personally. You can learn to handle these feelings and create positive options for yourself. *Don't Take It Personally* explores all forms of rejection where it comes from and how to overcome the fear of it. Most of all, you'll learn some terrific tools for stepping back from those overwhelming feelings. You'll be able to allow space to make choices about how you respond. Understand the effect that anxiety, frustration, hurt, and anger have on your interactions with others. De-personalize your responses and establish safe personal boundaries that protect you from getting hurt. Practice making choices about the thoughts you think and the ways you respond to stressful situations. Understand and overcome fear of rejection in personal and work relationships. Elayne Savage explores with remarkable sensitivity the myriad of rejection experiences we experience with friends, co-workers, lovers, and family. Because her original ideas have inspired readers around the world, *Don't Take It Personally* has been published in six languages.

[Coping with Rejection](#) Barbara Moe, 2001-01-01 Describes how to deal with rejection, how to identify feelings that occur when rejected, and how to take risks even when you might be rejected.

[How to Handle Rejection](#) Patrick McIntyre, 2014-10-22 If you want to learn a better way of dealing with rejection and how to overcome your fear of rejection for good, then this book is for you. There are many ways to be rejected, unfortunately, and none of them feel good. Some even impact our pockets, especially when we fail to get that job promotion, sale, or much-needed loan. Still, others have a negative impact on our lifestyles, such as being denied housing. While those are bad enough, there's also the agony of being rejected by someone we feel we just can't live without. Even more unfortunate, rejection is an inherent part of life. While most people are able to pick themselves up eventually, others develop such an overriding fear of rejection that they stop trying to reach out for more. Living in fear is not healthy, especially the fear of rejection, which has no survival value whatsoever. Living this way is a form of self-sabotage, a kind of slow suicide if you will. In this book, we'll explore why people are so afraid of rejection and the latest studies on the matter, which suggest there could actually be biological reasons for it. Then we'll explain how to deal with rejection in a relationship as well as in a career in sales.

**Handbook of Children's Coping** Sharlene Wolchik, Irwin N. Sandler, 2013-06-29 Highlighting the interplay between basic research and intervention, this volume focuses on common stressful life experiences that present significant challenges to children's healthy development. Fifteen stressors are discussed with regard to both short and long-term effects. The authors identify factors that explain variability in children's adjustment to these stressors and evaluate preventive interventions designed to facilitate coping. Notable chapters include a discussion of the many uncontrollable stressors to

which inner city youth are exposed and a thorough treatment of children's adaptation to divorce. Each chapter follows a common outline allowing comparison among stressors. *Handbook of Parenting* Marc H. Bornstein, 2019-02-01. This highly anticipated third edition of the *Handbook of Parenting* brings together an array of field-leading experts who have worked in different ways toward understanding the many diverse aspects of parenting. Contributors to the *Handbook* look to the most recent research and thinking to shed light on topics every parent, professional, and policymaker wonders about. Parenting is a perennially hot topic. After all, everyone who has ever lived has been parented, and the vast majority of people become parents themselves. No wonder bookstores, house shelves, and magazine racks in pharmacies and airports overflow with periodicals that feature parenting advice. However, almost none of these is evidence-based. The *Handbook of Parenting* is Period. Each chapter has been written to be read and absorbed in a single sitting and includes historical considerations of the topic, a discussion of central issues and theory, a review of classical and modern research, and forecasts of future directions of theory and research. Together, the five volumes in the *Handbook* cover: *Children and Parenting: The Biology and Ecology of Parenting*; *Being and Becoming a Parent: Social Conditions and Applied Parenting*; and *the Practice of Parenting*. Volume 4, *Social Conditions and Applied Parenting*, describes socially defined groups of parents and social conditions that promote variation in parenting. The chapters in Part I on *Social and Cultural Conditions of Parenting* start with a relational-developmental systems perspective on parenting and move to considerations of ethnic and minority parenting among Latino and Latin Americans, African Americans, Asians, and Asian Americans, Indigenous parents, and immigrant parents. The section concludes with considerations of disabilities, employment, and poverty on parenting. Parents are ordinarily the most consistent and caring people in children's lives. However, parenting does not always go right or well. Information, education, and support programs can remedy potential ills. The chapters in Part II on *Applied Issues in Parenting* begin with how parenting is measured and follow with examinations of maternal deprivation, attachment, and acceptance/rejection in parenting. Serious challenges to parenting, some common such as stress and depression, and some less common such as substance abuse, psychopathology, maltreatment, and incarceration, are addressed, as are parenting interventions intended to redress these trials. [Coping with Unemployment](#) Brian Jud, 1993. **Parenting and Child Development** Abdul Khaleque, 2021-03-08. This research-based book covers the core components of modern parenting and child development across multi-ethnic and cross-cultural contexts in Asia, Africa, Europe, and North and South America, with a focus on the United States. *Parenting and Child Development Across Ethnicity and Culture* is based on a cohesive framework that links physical, psychological, social, cognitive, and emotional aspects of children's lives to their experiences of parental behavior. This book covers the fundamentals of parent-child relationships, including the theoretical perspective of parenting, positive and negative parenting behaviors, and changing patterns of parenting from infancy through adolescence. Explored are parent-child relationships and their implications for children's health, well-being, and quality of life in different family

forms including parenting in drug addicted families homeless families cohabiting families single parent families and LGBT families around the world Using an array of theories with relevant empirical findings the practical implications for child development both within the United States and across the globe are highlighted Also included is specific information about tools and techniques for measuring intimate relationships and intervention strategies for relationship problems **Women in Management** Sanghamitra Buddhapriya,1999 Based on a survey of 160 women managers from ten public sector organizations carried out between 1993 and 1996 Investigates factors affecting their career development focusing on five main variables the sex role orientation of these managers leadership style fear of success organizational stresses and coping style Includes a review of the literature on these issues and looks at the status of women managers in some other countries
