## **Coping With The Past Germany And Austria After 1945:**

*Coping with the Past* Kathy Harms,Lutz-Rainer Reuter,Volker Dürr,1990 The defeat of Hitler in 1945 left Germany a tabula rasa Normal personal civic and political life had to be reconstructed on entirely new foundations The overriding question of German guilt naturally gave rise to other questions How could the German catastrophe have come about in 1933 How did the successor states the Federal Republic of Germany the German Democratic Republic and Austria view their joint past In what ways did they rebuild their political economic and social structures *Cold War Rivalry and the Perception of the American West* P. Goral,2014-03-07 This book demonstrates how the two adversaries of the Cold War West Germany and East Germany endeavored to create two distinct and unique German identities In their endeavor to claim legitimacy the German cinematic representation of the American West became an important cultural weapon of mass dissemination during the Cold War Hitler's Germany Roderick Stackelberg,2002-01-22 This book provides a comprehensive history of Nazi Germany and sets it in the wider context of 19th and 20th century German history It analyses how a culture of such creativity and achievement could generate such barbarism and destructivity *Germany, Europe and the Persistence of Nations* Stephen Wood,2018-12-20 Published in 1998 this book is an articulate and densely documented account of political cultural and historical forces and tensions involved in contemporary European integration most especially concerning Germany In doing so it provides an effective fusion of a vast array of material from what are normally separate disciplines The book investigates contemporary resonances of identifications and conceptions of political boundaries that appeared in Europe in the late eighteenth and nineteenth century It argues that within a supranationalising Europe national identity and nationalism have not disappeared as cultural and political phenomena Rather they persist and manifest themselves in variable forms at popular and elite levels This is the basis for Europe s condition of far from completed unity at the centre of which is now a reunited Germany more sure of itself but less sure of the world around it **Politics in Austria** Richard Luther,Wolfgang C. Mueller,2014-04-08 First Published in 1992 This is a collection of eight articles looking at consociationalism in the Austrian political system Areas covered are the decline of the Lager Mentality parties and the party system governmental institutions changing priorities in Austrian economic policy Austria in the European arena and the success of consociationalism **Cultural Strategies of Agenda Denial** Roger W. Cobb,Marc Howard Ross,1997 This is the first book devoted to examining why some issues proposed by aggrieved individuals or groups are denied access to policy agendas The book contains case studies that look at the policy process from the perspective of the strategies opponents often use to ensure agenda denial strategies usually motivated by perceived threats to widely held world views and identities *Germany and Austria since 1814* Mark Allinson,2014-10-30 Germany and Austria since 1814 presents an accessible overview of the distinctive historical experiences undergone by both Germany and Austria during this period Beginning in 1814 with the Congress of Vienna and ending two centuries later with the consequences and ongoing challenges of German

and European unification this book focuses on political history and traces the development of liberal parliamentary democracy in Germany and Austria through to the modern Federal Republic of Germany and Second Austrian Republic contextualising the Nazi period in both countries Particular emphasis has been placed on exploring major developments their causes and the relationships between them Fully revised this new edition has been expanded to include a new final chapter outlining developments in both Germany and Austria from 1990 to the current day including recent elections as well as modifications and updates to other earlier chapters Features include Nine chapters each analysing a distinct historical period and providing a timeline of the key events for quick reference and orientation Overviews of the main developments in European and World history at the beginning of each chapter providing international context crucial to a broader understanding of historical events Authentic extracts from contemporary German political texts in the original language Topics for discussion provided in every chapter A guide to further reading and key internet resources for further research A combined glossary of German terms Germany and Austria since 1814 provides the essential historical context necessary for an understanding of these pivotal European countries today It will be invaluable for undergraduate students taking courses in German History and Area Studies     The Challenges of Pluriculturalism in Europe Susanne Baier-Allen, Ljubomir Čučić, 2000     **Reunited "States"** Linda F.
