Corporations And The Environment:

Corporations and the Environment Stanford University. Committee on Corporate Responsibility, 1981 **Business and Environmental Policy** Michael E. Kraft, Sheldon Kamieniecki, 2007 It is well known that American businesses make an effort to influence environmental policy by attempting to set the political agenda and to influence regulations and legislation This book examines what is not so well known the extent to which business succeeds in its policy interventions In *Business and Environmental Policy* a team of distinguished scholars systematically analyzes corporate influence at all stages of the policy process focusing on the factors that determine the success or failure of business lobbying in Congress state legislatures local governments federal and state agencies and the courts These experts consider whether business influence is effectively counterbalanced by the efforts of environmental groups public opinion and other forces The book also examines the use of the media to influence public opinion as in the battle over drilling in the Arctic National Wildlife Refuge and corporations efforts to sway elections by making campaign contributions Because the book goes well beyond the existing literature much of which is narrow descriptive and anecdotal to provide broad based empirical evidence of corporate influence on environmental policy it makes an original and important contribution and is appropriate for a variety of undergraduate and graduate courses *Will Big Business Destroy Our Planet?* Peter Dauvergne, 2018-05-04 Walmart Coca Cola BP Toyota The world economy runs on the profits of transnational corporations Politicians need their backing Non profit organizations rely on their philanthropy People look to their brands for meaning And their power continues to rise Can these companies as so many are now hoping provide the solutions to end the mounting global environmental crisis Absolutely the CEOs of big business are telling us the commitment to corporate social responsibility will ensure it happens voluntarily Peter Dauvergne challenges this claim arguing instead that corporations are still doing far more to destroy than protect our planet Trusting big business to lead sustainability is he cautions unwise perhaps even catastrophic Planetary sustainability will require reining in the power of big business starting now **GEO-5 for Business** Dave Grossman, 2013 GEO 5 for Business builds on the findings of UNEPs fifth Global Environment Outlook GEO 5 report released in June 2012 GEO 5 assessed the current state and trends of the global environment in which population growth economic development urbanization and globalization are driving degradation across numerous environmental indicators Out of 90 environmental goals and objectives assessed in GEO 5 significant progress could only be shown for four Chapter 2 of the report briefly summarizes the drivers and trends described in GEO 5 Both the specific trends in GEO 5 and the broader picture of decline have significant implications for companies around the world regardless of size or sector some of which are reflected in the areas of Greenhouse gases Severe Weather Land Conversion Water Availability Water Pollution Biodiversity Chemical Exposure and Waste *The Corporate Planet* Joshua Karliner, 1997 Citing case histories such as Chevron Shell and Mitsubishi CORPORATE WATCH editor Joshua Karliner brilliantly exposes how transnationals aided by free trade agreements World Bank policies and massive consumer

campaigns play central roles in environmental destruction This important and timely book is a significant contribution to the battle against irresponsible corporate behavior **The Corporate Environment** John Collier,1995 Environmental laws Key environmental issues Investment Environmental systems Environmental reporting Environmental auditing Environmental accounting Taxation The way forward *The Environment in Corporate Management* Jean-Baptiste Lesourd,Steven Schilizzi,2001 Economists Lesourd U of the Mediterranean France and Schilizzi U of Western Australia Australia argue that there are often hidden business costs and benefits or hidden assets and liabilities in regards to the environmental practices of firms They discuss environmental management as an emerging sub field of business management emphasizing stakeholder theory as the proper analytic tool for decision making Environmental issues are viewed as conflict between a diffuse group of stakeholders including local communities and public opinion as well as more traditional groups of stakeholders ISO standards and other emerging norms are discussed Annotation copyrighted by Book News Inc Portland OR *From Heresy to Dogma* Andrew J. Hoffman,2001 This is a pathbreaking account of how the environmental movement has led to profound changes in the perceptions and practices of large scale corporations as shown here in the chemical and petroleum industries The book traces how market social and political pressures drive corporations to respond to environmental issues analyzes the cultural frames that organizations use to come to terms with these external influences and describes the resulting changes in organizational culture and structure For this expanded edition the author has written a new chapter that brings his original assessment up to date expands and modifies the model and data used in the original edition and offers a broad picture of the current state of corporate environmentalism and where it is going Greenwash Jed Greer,Kenny Bruno,1996 A detailed study of the activities of 20 transnational companies who despite green rhetoric remain the creators of dirty dangerous and unsustainable technologies **Corporations: Introduction. The nature of corporations. Ecclesiastical corporations. Feudalism and corporations. Municipalities. Gilds. Educational and eleemosynary corporations. V. 2. Educational and eleemosynary corporations (continued) National England. Regulated companies. Regualated exclusive companies. Joint-stock companies. Colonial companies. Legal view of corporations.
